MATH 128 - APPLIED ALGEBRA

Accelerated preparation for Introduction to Applied Statistics (Math 236) or College Mathematics for the Humanities (Math 230). Topics include calculations and error analysis on real number data, development of equations, formulas, and functions as mathematical models, exploratory data analysis, introduction to probability, and the development of statistical literacy. This course is designed for students who want an alternative to the Math 123/Math 127 sequence for meeting the math requirement of the Associates degree, or who intend to take Math 236, Math 232, or Math 230 to meet transfer requirements. Not intended for science, technology, engineering, math, or business majors. Prerequisite: MATH 007 with a minimum grade of C or better.
