IMPORTANT INFORMATION REGARDING REPEAT POLICY at CUESTA COLLEGE

Take this information into consideration when you receive your placement results and register for classes at Cuesta College:

Effective October 12, 2011, Title 5 state regulations have passed that limit your ability to repeat a class within three enrollments at Cuesta College. Enrollment applies to grades received at Cuesta College in prior terms, including “W” (withdrawal) grades. Consult with an academic advisor if you need further guidance.

THIRD REPEAT ATTEMPT
If you attempt to repeat a course for the third time, you must carefully consider if you are fully prepared to complete the course successfully. This will be your final opportunity to pass this course at Cuesta College.

- If you enroll but then later decide to drop the class with a “W” grade, you will not be allowed to enroll for a 4th attempt in a future term at Cuesta College based on current regulations.
- Only two substandard grades may be alleviated on your academic records/transcripts to improve your GPA (Grade Point Average).

FOURTH REPEAT ATTEMPT
You may petition to repeat a non-repeatable course, one time, based upon extenuating circumstances in a prior enrollment for extreme cases of documented, verifiable circumstances beyond your control. A petition is available at the Cuesta web site at: http://academic.cuesta.edu/admrreg/polforms.htm#rep

- Multiple W Regulation: Only three (3) “W” symbols are allowed on your transcript for a course at Cuesta. If approved to enroll for 4th time, you may not earn another W. An “F” or “NP” (if course is “P”/”NP” graded) will be posted on your transcript even if you drop by the last drop deadline. This will be considered in your request to repeat.

FIFTH OR MORE REPEAT ATTEMPTS
You have exceeded the allowable enrollments at Cuesta College. Repeat enrollment limits do not count at another college in another district. You may have the option of enrolling in an equivalent course at another California Community College.
