1. For every student that put themselves on a waitlist for a class, the percentage of those that successfully enrolled in the class after being waitlisted is 61.4%. (2054/3343)

2. For every waitlist registration, the following outcomes were:
   a) received a notification = 39% (2280/5845)
   b) removed themselves from the waitlist = 25.4% (1485/5845)
   c) remained on the waitlist as of the start of class = 35.3% (2064/5845)

3. Of those that were notified, the following outcomes were:
   a) enrolled in the class = 38.7% (883/2280)
   b) notification expired and replaced themselves on the waitlist = 24.1% (550/2280)
   c) notification expired and never enrolled or replaced themselves on the waitlist = 37.1% (847/2280)

4. Of those that replaced themselves on the waitlist, the following outcomes were:
   a) enrolled in the class = 73.3% (283/386)
   b) remained on the waitlist = 26.4% (102/386)
   c) dropped from the waitlist = .3% (1/386)

5. The average number of waitlist replacements = 2.1  Maximum = 4

6. Of all late registrations (after start of class) for waitlisted classes, the percentage of these from the waitlist = 53.6% (1030/1923)
Please review the following statistics for wait list performance. FYI,

I'm still working on impact of first day enrollment.

Wait List Statistics For Summer 2012:

1. For every student that put themselves on a waitlist for a class, the percentage of those that successfully enrolled in the class after being waitlisted is 41.8%. (412/985)

2. For every waitlist registration, the following outcomes were:
   a) received a notification = 51.2% (758/1480)
   b) removed themselves from the waitlist = 18.3% (271/1480)
   c) remained on the waitlist as of the start of class = 30.4% (450/1480)

3. Of those that were notified, the following outcomes were:
   a) enrolled in the class = 32.2% (244/758)
   b) notification expired and replaced themselves on the waitlist = 20.4% (155/758)
   c) notification expired and never enrolled or replaced themselves on the waitlist = 47.4% (359/758)

4. Of those that replaced themselves on the waitlist, the following outcomes were:
   a) enrolled in the class = 51.6% (65/126)
   b) remained on the waitlist = 48.4% (61/126)
   c) dropped from the waitlist = 0% (0/126)

5. The average number of waitlist replacements = 2.1. Maximum = 4

6. Of all late registrations (after start of class) for waitlisted classes, the percentage of these from the waitlist = 71.5% (206/288)
