

INSTRUCTIONAL COMPREHENSIVE PROGRAM PLANNING AND REVIEW (CPPR) FOR 2019

Cluster: WED

Program: AA in Criminal Justice & AST in Admin of Justice

Current Academic Year: 2018-2019 **Last Academic Year CPPR Completed:** 2014

Current Date: 2/19/19

NARRATIVE: INSTRUCTIONAL CPPR

I. GENERAL PROGRAM INFORMATION

A. Brief history of the program

The Cuesta College Criminal Justice Program is designed to prepare students for careers in law enforcement, investigations, corrections, private security, law and juvenile justice. Careers in criminal justice offer individuals a rewarding opportunity to serve the public, safeguard constitutional rights and actively meet the needs of the community. Criminal justice students study the activities and operations of law enforcement agencies, the courts and correctional agencies. The public and social policy implications associated with operating the criminal justice system are also explored.

There are two criminal justice degrees available in this program. There is an Associate in Arts in Criminal Justice ("AA"), which requires nine criminal justice courses or the Associate in Science in Administration of Justice for Transfer degree ("AS-T"). The AS-T is designed to prepare students for transfer into the California State University (CSU) to complete a baccalaureate degree in Administration of Justice or a similar major.

B. Include significant changes/improvements since the last Program Review

The significant changes since last program review include the following:

Infusion of new part-time faculty: Since the last program review, four new criminal justice faculty have been hired into the part-time pool. They replaced three individuals that resigned/retired from the pool. With them comes depth and diversity as they include a retired assistant district attorney, retired and active law enforcement and a retired parole officer.

Improved educational resources: Improved educational resources include the ongoing replacement of dated audio visual materials for current and timely ones. In addition, grant funding was secured to purchase a MILO Range Simulator, which provides the student with a "close as possible" experience involving use of force, discretion, and investigative report writing.

Introduce CJ226 in DE Format: CJ226 Report Writing is being offered in a distance education modality for the first time in Fall 2019. It is the first course in the program to be offered in this format. This major change will make the course more accessible to active law enforcement

personnel that may be interested in sharpening their report writing skills but have work schedules that are incompatible with a face to face format.

C. List current faculty, including part-time faculty

- Full-time- Stacy Millich
- Part-time- Lee Cunningham
- Part-time- Christopher Fitzpatrick
- Part-time-Gary Joralemon
- Part-time-Timothy Neumann
- Part-time-Steve Tolley
- Part-time-Frank Vanecek
- Part-time-Dave Zaragosa

D. Describe how the Program Review was conducted and who was involved

Program review was conducted by the only full-time faculty person, Stacy Millich. She had a meeting with part-time instructors a month in advance and discussed the Program with them. She reviewed the last APPW and CPPR and considered implications and significant changes. She drafted this document.

II. PROGRAM SUPPORT OF DISTRICT'S [MISSION STATEMENT](#), [INSTITUTIONAL GOALS](#), [INSTITUTIONAL OBJECTIVES](#), AND/OR [INSTITUTIONAL LEARNING OUTCOMES](#)

- A. The Criminal Justice Program addresses or helps to achieve the [District's Mission Statement](#), in the following ways:

The Cuesta College Mission Statement states that:

Cuesta College is an inclusive institution that inspires a diverse student population to achieve their educational goals.

Through innovative and challenging learning opportunities, Cuesta College enhances lives by promoting cultural, intellectual, personal, and professional growth. We prepare students to become engaged citizens in our increasingly complex communities and world.

The Criminal Justice Program helps to achieve the inclusivity and engagement pieces of the Mission Statement by offering curriculum that encourages students to consider the impact of the criminal justice system on disenfranchised, underserved and minority populations. This is a component of all courses that are offered. For example, in the Introduction to Criminal Justice course, which is required course for all students, the disproportionate impact of implementation of the death penalty on people of color is discussed. Moreover, the Community, Diversity and the Justice System course is devoted entirely to exploring issues of diversity in the justice system. Accordingly, the course catalog description is as follows: "Explores the complex relationships between the community and the justice system. Examines the role that race, ethnicity, gender, sexual orientation, social class and culture play in the administration of justice. Presents the challenges of administering justice within a diverse multicultural population and imparts cultural knowledge, awareness and competence."

We effectively support students in their efforts to improve foundational skills, earn certificates or associate degrees, transfer to four-year institutions, and advance in the workforce.

Please see the discussion regarding Institutional Goal No. 1, which is equally applicable here.

- B. The Criminal Justice Program helps to achieve the [District's Institutional Goals and Objectives](#), in the following ways:

Institutional Goal No. 1: Increase the rates of completion for degrees, certificates, and transfer-readiness overall for all students.

This goal is supported by two Institutional Objectives:

1. Increase student success in Basic Skills, English as a Second Language, Career Technical Education, degrees, and transfer programs
2. Foster a college environment where students are Directed, Focused, Nurtured, Engaged, Connected, and Valued

The Criminal Justice Program helps achieve the goal of increasing the rates of completion for degrees, certificates and transfer readiness. It likewise increases student success in career technical education. In this regard, students have two degree options available to them.

For those students who wish to transfer, an AD-T is available to them. This degree is specifically designed to facilitate transfer to a CSU campus. Specifically, if a student completes an “associate degree for transfer”, the CSU guarantees admission with junior status and grants a student priority admission to his or her local CSU campus and to a program or major that is similar to his or her community college major or area of emphasis, as determined by the CSU campus to which the student is admitted. Completion rates are accelerated because the degree requires two core criminal justice classes: Introduction to Criminal Justice and Concepts of Criminal Law and allows the student to choose two additional courses from the following list: Principles and Procedures of the Justice System, Legal Aspects of Evidence, Principles of Investigation, Community, Diversity and the Justice System and Introduction to Corrections.

For those students who wish to join the workforce, an AA degree is available. This degree has nine criminal justice courses that includes all of the above listed courses and also requires completion of the Investigative Report Writing and Patrol Procedures courses.

In addition, the Program has been enhanced to promote students’ success and completion with enhanced hands on learning opportunities provided by the Milo, range simulator, referenced above. The simulator will facilitate student learning and completion by increasing feasibility of engaging in hands on activities during class. The simulator is equipped with a laser shooting pistol and laser emitting pepper spray canister. The system uses a laptop computer and screen to display graphics and interactive video scenarios for student learning relating to: Using lethal and non-lethal weapons; Applying a Use of Force Continuum; Exercising discretion and sound decision making; Conducting crime scene investigations; Drafting Investigative reports; Role playing and Responding to verbal commands. The Simulator has benefitted the students and enhanced their educational experience. The video scenarios provide a valuable tool in illustrating concepts through real world examples and demonstrating law enforcement tactics and techniques.

This enhanced learning opportunity also serves to “Foster a college environment where students are Directed, Focused, Nurtured, Engaged, Connected, and Valued.” The activities around the Milo simulator give students the opportunity to get real time feedback on their performance in a safe setting. The criminal justice instructors also collaborate at instructor meetings and discuss strategies to engage and nurture students.

Institutional Goal No. 2: Increase student access to higher education.

The Criminal Justice program helps achieve the goal on increasing student access to higher education through outreach efforts, exploration of dual enrollment opportunities and distance education offerings.

Outreach efforts include the following activities by the criminal justice instructors: promotion of an internship opportunity with the San Luis Obispo County Probation Department, membership

in the San Luis Obispo County Bar Association, membership in the Women Lawyers Association, continued participation in community and student outreach events, close contacts with law enforcement and the criminal justice instructors working in law enforcement.

The Criminal Justice Program Advisory Committee also facilitates a strong bond with local criminal justice agencies. The Committee consists of industry representatives from the district attorney's office, local law enforcement, corrections, and probation. These individuals provide advice and insight on how the program can best serve the needs of the criminal justice system. In addition, they are active in reviewing and providing suggestions to improve curriculum.

Efforts were made to establish dual enrollment courses in the Program. The challenge is that the high school teachers do not have the necessary Minimum Qualifications to teach the criminal justice courses. Moreover, retired law enforcement officers have been advised that accepting employment at the high school threatens the calculations for their PERS retirement. Follow up regarding whether this information is accurate is necessary.

Access to higher education is also being enabled through the offering of the CJ226 course as a distance education course. It is the first course in the program to be offered in this format. It is a major change as the course will be more accessible to active law enforcement personnel that may be interested in sharpening their report writing skills. It is anticipated that Legal Aspects of Evidence will be offered in a DE modality, as well.

C. The Criminal Justice program helps students achieve [Institutional Learning Outcomes](#).

The Program helps to achieve many of Cuesta's Institutional Learning Outcomes.

First, criminal justice students are taught **the professional skills necessary for successful employment**. Students must learn how to identify elements of a crime and interpretation of penal statutes, which is a critical. They also must choose two of five courses that teach them: to successfully complete a criminal investigation course, the constitutional parameters of acceptable law enforcement activities and to communicate in a diverse society,

Second, students learn to **analyze and evaluate their own thinking processes and those of others**. All of the Administration of Justice courses require students to analyze and evaluate their thinking processes and those of others. Almost without exception, criminal justice issues are subject to debate. For example, in the Introduction to Criminal justice class, which is mandatory, a student's views on the nation's drug policies are challenged. Students are asked to consider whether substance abuse is better handled as a public health as opposed to a criminal justice issue. This analysis requires students to challenge their own thinking on the subject and those of others.

Third, students learn to **communicate and interpret complex information in a clear, ethical, and logical manner**. Each of the criminal justice courses teach students to communicate and interpret complex information in a clear manner to varying degrees. For example, in the

criminal procedure course, students must provide a written and oral interpretation of seminal United States Supreme court cases. Students are required to discern salient facts, court holdings and rationale for complex cases.

Fourth, students study **diverse groups and cultures through studying the world's languages, societies, and histories** in the Community, Diversity and the Justice System course. Students improve their cultural competency by exploring the roles that race, ethnicity, gender, sexual orientation, social class and culture in the administration of justice. Topics include cross cultural communication, racial profiling, inequality, discrimination, inequitable exercise of discretion, and the overrepresentation of minorities in the criminal justice system. Students also explore their own biases through individual and group activities that require reflection on one's biases.

Insert

The College has seen a slight increase in enrollment over the last five years while the criminal justice enrollments have declined significantly. This decline obviously greatly exceeds the College wide average. However, the College's increase is largely attributable to distance education, dual enrollment and California Men's Colony offerings. The criminal justice program will be offering its

first DE course in the Fall of 2019 and is planning to add one more in the Spring of 2020. Unfortunately, dual enrollment is not a viable option because, as discussed above, high school instructors do not have the minimum qualifications needed and the PERS retirement calculation issue makes employing retired law enforcement to teach those courses untenable. Moreover, the lead instructor inquired about offering criminal justice courses at CMC but prison administrators do not wish to run criminal justice courses there.

[General Student Demand \(Fill Rate\)](#)

SLOCCCD Program Review Data - Student Demand (Fill Rate)

Department:
Criminal Justice

Course:
All

Dual Enrollment:
All

Prison
All

Fill Rate: The ratio of enrollments to class limits. Cross listed class limits are adjusted appropriately.
Also, courses with zero class limits are excluded from this measure.

The College has a five-year average fill rate of 80% and the Criminal Justice Program is at 76%. Unfortunately, the Criminal Justice Program has seen a steady decline in fill rate over the five-year period. However, the fill rates vary widely between courses. So, the lower fill rate courses need to be targeted for improvement. In that regard, the five-year average fill rate for the Program courses are as follows:

- CJ 202: 87%
- CJ 204: 70%
- CJ 206: 83%
- CJ 208: 89%
- CJ 210: 88%
- CJ 213: 61%
- CJ 224: 72%
- CJ 226: 39%
- CJ 228: 76%

CJ226, the investigative report writing course, has the worst five-year average of 39%. Accordingly, it is the first course that will be offered in a DE modality in the Fall of 2019. It is hoped that current law enforcement officers will enroll as investigative report writing skills are an integral and critical part of the job that many struggle with according to the Criminal Justice Advisory Committee.

CJ213, the patrol procedures course, also has a troubling average of 61%. Filling this course is a challenge because, like the CJ226 course, it cannot be counted toward the Administration of Justice ADT. It is required for the AA, however. A proposal to eliminate this course from the degree requirements was not well received by criminal justice faculty and the Criminal Justice Advisory Committee. Their view is that it is a critical course for law enforcement officers. Moreover, offering it online is not a viable option because, in their opinion, face to face instruction is required to effectively teach the critical concepts. Accordingly, none of the criminal justice instructors are interested in teaching it online.

General Efficiency (FTES/FTEF)

FTES/FTEF: The ratio of total FTES to Full-Time Equivalent Faculty
(SXD4 Total-Hours/17.5)/XE03 FACULTY-ASSIGNMENT-FTE)

The five-year efficiency average for the College is 13.27 and for the Criminal Justice Program is 15.35. The most recent College wide and Criminal Justice Program efficiency numbers are 12.88 and 13.73 respectively. With class caps set at 40 for all courses except for CJ210 (which has 25), the Criminal Justice program remains as efficient as the College wide standard despite low fill rates for some courses. The Criminal Justice Program efficiency metric will also likely improve when the fill rates of the CJ226 course are improved by offering the course online.

The five-year average course completion rate in the face to face modality is 75% for the College and is 74% for the Criminal Justice Program. The most recent College wide face to face modality success rate is 76.88 and the Criminal Justice Program is slightly lower at 75.58%. There are no DE classes offered so the success rates in that modality are not compared.

VI. PROGRAM DEVELOPMENT

Curriculum and scheduling

Curriculum changes over the next cycle will likely include:

- Update Text books in Course Outlines of Record for all courses with an eye toward Online Educational Resources.
- Revise CJ 208 Course Outline of Record to remove references to the 4th Amendment
- Review CJ210 Course Outline of Record lab/lecture hours
- Migrate more classes to the DE modality- starting with CJ226 and then CJ208
- Explore dual enrollment opportunities

Scheduling changes over the next cycle will likely be determined in large part by the implementation of guided pathways. Block scheduling is already being utilized for CJ courses but schedule adjustments may be necessary when viewed in conjunction with other courses on the suggested pathways.

Support services to promote success, persistence and retention

The early alert system and other guided pathways student success strategies are welcomed. It is also important to look at the two degrees offered and see if there is a way to maximize completion rates under the Student-Centered Funding Formula. These activities will surely occur during the next cycle.

Facilities needs

The facilities themselves are adequate. There is no reason to think that a larger classroom would be required in the next five years. However, the technology (computer audio visual, smart board etc.) in room 4114 are completely unacceptable. There are times when the computer does not speak to the smart board and no image is sent to the screen. There are other times when the screen goes completely black during lectures. It is extremely unprofessional. There have been ongoing instructional emergencies where computer services is able to patch the problems but to actually resolve the issues, an upgrade of all components is required.

Staffing needs/projections

The Department is well staffed and absent resignations there will not likely be any new staffing needs in this review cycle.

Increased Funding strategies

The lead instructor has been acting as Academic Senate President for the last two years, and accordingly, has not been available to do as much outreach as in years past. A return to more

marketing and outreach activities will hopefully help to increase with declining enrollments. Moreover, increased DE offerings and continuing to explore dual enrollments possibilities may help with this, as well.

As indicated above, a review of the degrees with a Student-Centered Funding Formula lens may also help to increase funding.

VII. After completing and submitting this document, please complete the [Overall Program Strength and Ongoing Viability Assessment](#) with your Dean before May 15, 2018.
