

ASSOCIATE DEGREE FOR TRANSFER (ADT)

ADMINISTRATION OF JUSTICE (EVENING PROGRAM)

The Criminal Justice Program studies the activities and operations of law enforcement agencies, the courts and correctional agencies. The public and social policy implications associated with operating the criminal justice system are also explored. Criminal Justice careers offer individuals a rewarding opportunity to serve the public, safeguard constitutional rights and actively meet the needs of the community.

NORTH COUNTY CAMPUS

ASSOCIATE DEGREE FOR TRANSFER (ADT)

CUESTA
COLLEGE
cuesta.edu

Complete your Associate Degree for Transfer in just two years!

Cuesta College now offers six Associate Degrees for Transfer (ADTs) that you can complete entirely at the North County Campus within a two-year period. The following ADT courses have been outlined for you, as a clear pathway to earning your degree!

ADT (A.A. for Transfer and A.S. for Transfer) California community colleges offer the Associate Degrees for Transfer to the California State University system. This includes Associate in Arts (AA-T) and Associate in Science (AS-T) degrees. These degrees are designed to provide a clear pathway to a CSU major and baccalaureate degree. California community college students who are awarded an AA-T or AS-T degree are guaranteed admission with junior standing in to the CSU system and given priority admission consideration to their local CSU campus or to a program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses. Consult with the Cuesta College Transfer Center for mandatory application, evaluation and notification deadlines.

Students who have been awarded an AA-T or AS-T are able to complete their remaining requirements for the 120-credits baccalaureate degree within 60 semester or 90 quarter credits.

ADT Requirements: Students pursuing the Associate Degree for Transfer are also required to complete a minimum of 12.0 credits in residence at Cuesta College.

1 Completion of 60 semester credits or 90 quarter credits that are eligible for transfer to the California State University, including both of the following:

>> The California State University General Education Breadth Requirements (CSU GE) or the Intersegmental General Education Transfer Curriculum (IGETC), and

>> A minimum of 18 semester credits or 27 quarter credits in a major or area of emphasis, as determined by the community college district.

2 A minimum overall grade point average of 2.0.

3 A "C" or better grade in all courses required for the major or area of emphasis; a "P" (Pass) grade is not an acceptable grade for courses in the major. External exams such as Advanced Placement, etc. are not subject to this grade restriction."

AGRICULTURE BUSINESS

The AS-T in Agriculture Business is designed for students wanting in-depth knowledge of the core agriculture business fundamentals, emphasizing chemistry, accounting, economics, sales, and computer applications as they apply to agriculture businesses. This knowledge and skill set comprise the components necessary to work successfully within an agribusiness environment or transfer to a four-year agribusiness program.

BUSINESS ADMINISTRATION

Business Administration is a broad area encompassing accounting, law, economics, global trade, financial markets, computer information systems, business communications and marketing. Study in this area explores the theories, history, principles, practices, ethics and technologies governing contemporary issues in a global business environment. This program is designed to provide a basic overview of all subject matter and is preparatory lower division coursework for a bachelor's degree.

COMMUNICATION STUDIES

The Communication Studies program compels students to explore the communication theories, strategies, and skills needed to succeed in our complex and diverse world. Courses focus on improving social, cultural, professional, and personal experiences through the understanding and applied practice of communication. Through the study and practice of communication, students will become more competent communicators in their professional and personal lives.

PSYCHOLOGY

Psychology is the scientific study of behavior and mental processes that provide the basis of life experience. Students learn to examine psychological processes from multiple perspectives and apply psychological principles and methods to personal and social issues in ways that promote self-understanding, personal development and effective interpersonal relationships as members of a diverse society.

SOCIOLOGY

Sociology is the study of the human social behavior and its origins, development, organizations, and institutions. The study of human behavior in social context assists students to learn who we are, to get closer to the truth about the social world, and to become aware of ways to achieve desired social ends. Sociology stresses the ability to observe, organize and write clearly, as well as the development of skills in the analysis of data and in collaborating with others.
