

# The Community College Educator Toolkit

## Strategies for How to Embrace our Students' Backgrounds, Honor their Individuality, and Guide Them to Success

### Join Us!

For a professional learning session facilitated by Dr. Natacha Cesar-Davis, inaugural Assistant Dean of Black Life and Equity, Diversity, and Inclusion at the School of Education and Information Studies at the University of California, Los Angeles (UCLA).

### About the Session

Through a developmental and ecological lens, participants will examine the experiences of a particular historically underserved population, Latinas. Through this analysis, there will be an overview of “perceived risk” factors that Latinas face in post-secondary education while also drawing on insights into the successful strategies that institutionally implemented can support Latinas. Attendees will be able to engage with their colleagues, ask questions, and acquire a toolkit of practical strategies they can implement in their work supporting Latinas and all students at Cuesta College.
