# MISSION, VISION, AND VALUES

---

## COLLEGE MISSION

Cuesta College is an inclusive institution that inspires a diverse student population to achieve their educational goals.

We effectively support students in their efforts to improve foundational skills, earn certificates or associate degrees, transfer to four-year institutions, and advance in the workforce.

Through innovative and challenging learning opportunities, Cuesta College enhances lives by promoting cultural, intellectual, personal, and professional growth. We prepare students to become engaged citizens in our increasingly complex communities and world.

## VISION

Cuesta College is dedicated to accessible, high-quality education for the support and enhancement of student success, professional development, and the community we serve.

## VALUES

Access - Success - Excellence

# ANNUAL BUDGET PROCESS

The budget development process begins with the development of budget assumptions to guide the allocation of resources. From February through April, budget assumptions are developed for the following fiscal year. The Planning and Budget Committee reviews budget assumptions each May for use in developing the budget for the next fiscal year.

Information from a variety of sources is considered in the development of the budget including:

- Institutional Goals and Institutional Objectives
- Priorities identified through the Institutional Program Planning and Review process
- Mandates from external agencies
- Status of long-term obligations

During early spring, operational units identify and prioritize needs for staffing, facilities, services, and equipment. These unit-level requests for resources are submitted using the Annual Program Planning Worksheet as part of the Institutional Program Planning and Review process. High-priority needs are funded at the unit level, if possible. The Annual Program Planning Worksheets are combined at the cluster level and are once again prioritized. High-priority needs are funded at the cluster level, if possible. In addition to unit level plans, the Superintendent/President and Vice Presidents can also identify budget priorities of an institution-wide nature.

The Planning and Budget Committee determines the number of requests that each cluster may present for the Ongoing Institutional Prioritization Process. All clusters submit their list of prioritized ongoing needs to the Planning and Budget Committee each March. In order to fund these ongoing requests, the Planning and Budget Committee may recommend that new funding sources be used (if available) or that the administration identify current funding sources in order to remain revenue neutral.

Cluster managers must submit technology-related requests for review to the Technology and Web Committee, though these requests are not treated separately from other ongoing or one-time requests in the prioritization process. Identifying technology needs is an important exercise as the state budget occasionally provides restricted funds that can be used to address hardware and software needs.

All prioritized requests will be aggregated into a final Prioritized Institutional List to indicate relative needs for one-time and ongoing requests.

Cluster requests are first scored objectively using a 75-point scale rubric which weighs each request based on the following criteria:

1. The contribution the request makes toward reducing equity gaps amongst disproportionately impacted groups as detailed in the Student Equity Plan
2. The contribution this proposal will make toward the achievement of Institutional Goals and/or Institutional Objectives
3. An outcome based on the measurement of student learning outcomes or administrative services outcomes
4. Data in the Institutional Program Planning and Review
5. Priority of the items as determined by the unit and cluster
6. Health or safety concerns

Once this objective scoring is complete, cluster managers will present a narrative to the Planning and Budget Committee for subjective ranking. The Planning and Budget Committee will receive the ranking generated from the co-chairs' use of the Resource Allocation Rubric on the Subjective Ranking form. Each committee member then ranks the items in their priority order. To determine the final order, the points from the Resource Allocation Rubric will be combined with the subjective ranking, with a slightly heavier weight placed on the cluster ranking. The results of this process are presented to the Planning and Budget Committee in May. The Superintendent/President then has the option to fund items in the annual budget.

# ASSUMPTIONS FOR DEVELOPING 2024-2025 BUDGET

*(As recommended by the Planning and Budget Committee on May 16, 2024)*

Note: Some of the estimates have changed based off of the state's final budget and information provided by the Chancellor's Office

## THE DISTRICT'S BUDGET WILL:

- ♦ Be balanced
- ♦ Assume District will be funded as provided by the SCFF funding calculation
- ♦ Reflect the 2024-2025 State Budget
  - Recognize any increase/decrease in state funding
  - Recognize net \$6,912,264 in one-time CARES funding
  - Include an escrow account for predicted budget shortfalls (i.e., property tax, RDA funding, student fees, restoration)
  - Part-Time Faculty Health Insurance funding based on reimbursements
  - Recognize a COLA of 1.07%
  - Recognize a deficit factor of 1.0%
  - Reflect any changes to the funding formula approved by the state
- ♦ Incorporate the assumptions of the Five-Year Budget Projections
- ♦ Carryover FY 2023-2024 balances as recommended by the Planning and Budget Committee
- ♦ Recognize changes in on-going, 2000, and 3000 (salaries and benefits) due to Step, Column, and other movement:
  - Recognize change in PERS rate from 26.68% to 27.05%
  - Recognize STRS rate of 19.1%
  - Recognize change in Workers' Compensation Insurance premium from 1.15% to 0.82%
  - Recognize change in State Unemployment Insurance at 0.05%
  - Assume an inflationary factor of 2.0% for most items in Operational Expenses (5000) with additional, as needed (i.e., Utilities, Repairs & Maintenance)
  - Budget current on-going obligations that have not been previously budgeted
  - Increase required level of match by the District for categorical programs, when required
  - Increase the District match for categorical programs by the proportionate amount of any salary increases approved for employee groups
  - Budget for long-term obligations
  - Recognize any investment income from the PARS pension stabilization fund
- ♦ Recognize Legal, Financial, and Statutory Requirements

The District will develop a budget that:

  - Maintains a reserve of at least 16.7% of unrestricted general fund expenditures.
  - Meets the fifty percent (50%) law (i.e., at least 50% of the current expense of education is allocated to instructional salary and benefits).
  - Provides for staffing levels required by the Board of Governors in relation to Title 5, Chapter 4, Subchapter 3, Articles 1, 2, and 3 that maintain compliance with the Full-Time Faculty Hiring Obligation Number; Fall 2023 was 57% FT to 43% PT.
  - Includes reasonable provisions to cover all known or projected liabilities to the District (e.g., accumulated vacation, sick leave, etc.).
  - Meets all statutory and legally mandated income/expenditure requirements.
- ♦ Comply with the Education Protection Account (EPA) requirements for Prop 55 funds designated for instructional salaries
- ♦ Not exceed appropriations limit as calculated on the Gann Limit Worksheet

# BUDGET CRITERIA

*(As recommended by the Planning and Budget Committee on May 16, 2024)*

## THE PURPOSE OF THE DISTRICT'S BUDGET IS TO PROVIDE:

- Students with a high-quality, learning-centered education.
- The resources and support needed to deliver effective instruction.
- The resources and support to facilitate the teaching-learning process.
- The means to manage the District in an efficient and cost-effective way.

## THE CRITERIA LISTED BELOW WILL BE USED IN DEVELOPING THE BUDGET:

- Institutional Goals and Objectives
- Institutional Achievement Standards
- Priorities identified through the Institutional Program Planning and Review process
- Mandates from External Agencies
- Long-term Obligations
- Learning Outcomes (student, institutional, administrative)
- Guiding Principles for Budget Reductions due to Budget Shortfalls
- Legal, Financial, and Statutory Requirements
- Procedural Guidelines

### 1. Institutional Goals and Objectives & Institutional Achievement Standards

The District provides direct links between resource allocations and planning:

- The Institutional Program Planning and Review process includes the requirement that units address how they contribute to the achievement of Institutional Goals and/or Institutional Objectives and Institutional Achievement Standards.
- Requests for funding are prioritized by the Planning and Budget Committee using a rubric that gives higher scores to proposals that will contribute to the achievement of the Institutional Goals and Institutional Objectives.
- The District has established an Institutional Objectives Account. These funds are allocated based on the extent to which the funding will contribute to the achievement of an Institutional Objective.

### 2. Priorities identified through the Institutional Program Planning and Review process

The Planning and Budget Committee uses the Resource Allocation Rubric to develop a recommendation of institutional priorities. The rubric weighs each request based on what extent the request is justified by:

- The contribution the proposed item will make toward the achievement of Institutional Goals and/or Institutional Objectives.
- An outcome based on the measurement of learning outcomes (student, institutional, administrative).
- Data in the Institutional Program Planning and Review.
- Health or safety concerns.

### 3. Mandates from External Agencies

The District will develop a budget that covers mandates from external agencies.

### 4. Long-term Obligations

The District will develop a budget that covers long-term debt obligations.

# BUDGET CRITERIA *(cont.)*

## 5. Learning Outcomes (student, institutional, administrative)

### 6. Guiding Principles when addressing Budget Reductions due to Budget Shortfalls (as adopted by Planning and Budget)

- Protect as much as possible of the core curriculum, programs and services needed to fulfill the mission for the District and California Community Colleges.
- Maintain student access and service throughout the District as much as possible.
- Reduce, combine, suspend, or eliminate services, programs, positions, or other costs farthest from students, instruction, and the support needed for student success.
- Stay flexible, plan for contingencies, and recognize that decisions at the state level may not be made in a timely manner, acknowledging that all units must work together as a college.
- Communicate civilly; gather facts, weigh options, listen, and deliberate together when difficult choices have to be made.
- Any plan would go through the governance process.

## 7. Legal, Financial, and Statutory Requirements

### The District will develop a budget that:

- Achieves and maintains a reserve of at least six percent (6%) of unrestricted general fund expenditures.
- Meets the fifty percent (50%) law, i.e., at least 50% of the current expense of education is allocated to instructional salary and benefits.
- Provides for staffing levels required by the Board of Governors in relation to Title 5, Chapter 4, Subchapter 3, Articles 1, 2, and 3 that maintain compliance with the Full-Time Faculty Hiring Obligation Number.
- Includes reasonable provisions to cover all known or projected liabilities to the District (e.g., accumulated vacation, sick leave, etc.).
- Meets all statutory and legally mandated income/expenditure requirements.

## 8. Procedural Guidelines

### The District will develop a budget that:

- Is balanced.
- Is based on planning that reflects both current and long-term District needs.
- Makes steady progress toward correcting actual or anticipated structural budget issues (e.g., declining revenue, rising costs, lack of on-going dollars to cover ongoing expenses, etc.).
- Has had campus community involvement and consideration during preparation.
- Includes all contractually negotiated costs and expenses.
- Reflects the state's economy.
- Includes all known and projected increases in fixed costs; identifies significant but unfunded items not included in the budget.
- Highlights new and/or unusual items and/or provides information on substantive changes from previous budgets.
- Eliminates the structural deficit annually by projecting the trends of the increases to the 3000 account on a three-year basis, minimally, and including this projection as a budget assumption in the development of each year's annual budget. The rate of increase of the 3000s and the subsequent projected costs should be budgeted into each year's annual budget accordingly.
- Considers restructuring any long-term debt to minimize annual fiscal impact.

# STATE BUDGET OVERVIEW

## *Tentative Budget*

### State Overview

As anticipated, the Governor's May Revision showed a larger deficit than what was estimated in January, growing from \$38 billion to \$44.9 billion. Further, the May Revision details that the budget deficits are not one-time, as the 2025-26 gap is projected to be \$28.9 billion, if unaddressed. For this reason, Governor Newsom recommends a two-year approach to address the problem.

It should be noted that state leaders had already taken some steps toward shrinking the problem through an Early Action Plan adopted in April. Those actions achieved \$17.3 billion in solutions, through a combination of cuts in one-time funding, fund shifts, funding deferrals and delays. This action reduced the budget year gap to \$27.6 billion. To balance the remaining deficit, the May Revision relies primarily on funding reductions, the use of reserves, more funding shifts and delays. In total, the state general fund expenditures for 2024-25 would be \$201 billion, down from \$226 billion approved in the prior year budget.

### Proposition 98

Proposition 98 has a significant role to play in the budget picture, as the formula provides that the current year's minimum guarantee is calculated on top of the prior year guarantee. As the 2022-23 guarantee was over appropriated according to current revenue estimates, the state's budget problem would be much more difficult to solve if minimum guarantee were not addressed.

Governor Newsom has proposed a novel approach to addressing the prior year guarantee, one not supported by the Legislative Analyst's Office or key education stakeholders. The maneuver would postpone recognition of \$8.8 billion in 2022-23 payments to future years for purposes of calculating the minimum guarantee. The intent is to lower the guarantee over a multiyear period without literally taking prior year allocations back from K-14 districts. Instead, paper payments would be made for accounting purposes over a number of future years beginning in 2025-26. While districts would not actually receive the payments in those years (they already received it in 2022-23), it would cost non-98 entities resources.

Education stakeholders, notably the California Teachers Association and the California School Board Association, threatened to sue the state if this maneuver were enacted, as they believe it would set a precedent for manipulation of Proposition 98 and would deprive schools of funding in future years. As of this writing, it appears likely that a different approach will be negotiated before a final budget is enacted.

Per the Governor's proposal, the minimum guarantee would be funded at \$97.5 billion in 2022-23, \$102.6 billion in 2023-24, and \$109.1 billion in 2024-25. This is a decline of \$17.7 billion over the three years. The prior year \$8.8 billion maneuver lowers the guarantee in 2022-23 and in the subsequent years. The Governor would deplete the Public School Stabilization Account over the 2023-24 and 2024-25 years to help K-14 districts weather the storm.

### California Community Colleges

While the details of a final budget agreement may alter the picture, the May Revision proposal for the California Community Colleges (CCCs) is relatively simple:

- \$78.23 million for a COLA of 1.07% for the Student Centered Funding Formula (SCFF) rates and selected categorical programs
- \$28.9 for enrollment growth of 0.5%
- \$60 million in one-time funding to expand nursing education capacity

While this proposal represents a modest programmatic increase for the CCCs relative to recent budgets, it is encouraging that any increases at all are offered in a year where the state faces such a large deficit. Whatever its technical flaws, the Governor's proposal demonstrates a commitment to maintaining stable funding for K-14 education.

# STATE BUDGET OVERVIEW *(cont.)*

## *Tentative Budget*

### Challenges Ahead

Whatever the outcome the final state budget provides, Cuesta College will need to remain focused on our standing in the SCFF. Higher than usual COLAs in recent budgets have pushed the timeline for attaining Community-Supported (basic aid) status back several years. Cuesta College, like most districts in the state, experienced steep declines in enrollment since the pandemic began which will likely cause stagnation in our general-purpose resources as funding protections phase out. Additionally, pension costs are scheduled to increase over the next several years, and we've seen the impact of inflation in areas like utilities. Clearly, community colleges remain subject to the state's revenue volatility, and the Chancellor's Office has warned of apportionment deficits as property taxes and Education Protection Account funds have lagged behind expectations.

Fortunately, the District has budgeted prudently, knowing that state revenues are volatile and that COVID-19 protections were temporary. The District has strong reserves in place to handle coming challenges and absorb this year's increases in compensation, pension contributions, insurance, and other areas affected by inflation.

### Potential areas for action in 2024-25:

- Invest additional one-time resources into the pension trust account, potentially from the Employee Retention Credit
- Improve efforts to recruit and retain students
- Plan for the refreshment of priority technology funded during the pandemic
- Recruit more international students
- Generate revenue from surplus property
- Maintain reserves to protect operations from revenue shortfalls

# DISTRICT REVENUE AND THE STUDENT CENTERED FUNDING FORMULA

Apportionment is the District's primary source of general purpose revenue. Through the 2017-18 fiscal year, community colleges were funded primarily through Full-Time Equivalent Students (FTES) under what was known as the SB 361 model. In 2018, the state significantly altered community college funding through enactment of the Student Centered Funding Formula (SCFF). The SCFF moved the system away from a pure FTES model through inclusion of student performance and demographic metrics. As initially calculated, only 70% of SCFF funding is to be based on FTES, with 10% based on student success metrics (e.g., number of degree completions, transfers, certificates, etc.) and 20% for a supplemental grant based on the number of disadvantaged students (Pell grant recipients, Promise Grant recipients, and AB 540 students). Certain FTES (noncredit, special admits, incarcerated) are excluded from the SCFF calculation and are funded as they were under the previous model.

The state's colleges have endured growing pains during the transition to the formula. The pandemic added another layer of complexity as statewide enrollment declined precipitously. To address this issue, the Chancellor's Office enacted an Emergency Conditions Allowance (ECA) option to allow districts to carry forward FTES reported in 2019-20 P1 through the 2022-23 year. This kept SCFF calculations higher than they otherwise would have been for districts that opt in. Cuesta College opted in to the ECA for 2022-23, as otherwise funding would have decreased by \$1.3M in 2022-23 and an estimated \$1.8M in 2023-24. As of 2023-24, the ECA is no longer in effect, so each District's actual FTES will be included in the calculation.

The state provides other forms of protection for districts that would otherwise realize funding declines. The SCFF "hold harmless" provision provides that no district will receive less than its 2017-18 level of funding as adjusted by annual COLAs. As of 2025-26, a district's hold harmless floor will be the revenues received in 2024-25 (without any COLA adjustment). The state also provides one-year "stability" protection, which funds districts in the current year no less than the prior year SCFF calculation as adjusted by the current year COLA.

Tracking, projecting, and communicating the District's funding status has become more difficult due to the SCFF and the emergency allowances enacted during the pandemic. The formula includes 29 factors, and there have been many changes since the original enactment. Further, the complexities of the SCFF have made it challenging for the state to project the revenues needed to fully fund the formula. Indeed, the state has had to deficit the formula several times in recent years. It is a challenge for districts to project multi-year revenues when the rules of the game are in constant flux.

Due to the ECA and other increases enacted in the budget, Cuesta College's SCFF calculation was above the stability and hold harmless levels in 2023-24. Now that our actual FTES is beginning to roll into the formula, the District expects to be in stability for the 2024-25 fiscal year. We should proceed cautiously with ongoing budget commitments as our funding may stagnate in future years. The District will not earn significant increases in funding unless we realize stronger than anticipated enrollment growth.

# DISTRICT REVENUE AND THE STUDENT CENTERED FUNDING FORMULA *(cont.)*

State apportionment is made up of property taxes, enrollment fees, Education Protection Account (Prop 55), and general apportionment. The structure of the District's 2024-2025 general apportionment of approximately \$72.8 million is as follows:

\$54.1 million Property tax (primarily paid in December and April).....	75.0%
\$3.6 million Enrollment fees.....	5.0%
\$13.9 million Education Protection Account (paid quarterly).....	19.2%
\$1.2 million General Apportionment (paid per a monthly schedule).....	0.8%
<b>\$72.8 million .....</b>	<b>100.00%</b>

This chart shows the number of FTES earned each academic year.

## Full Time Equivalent Students (FTES) Actual

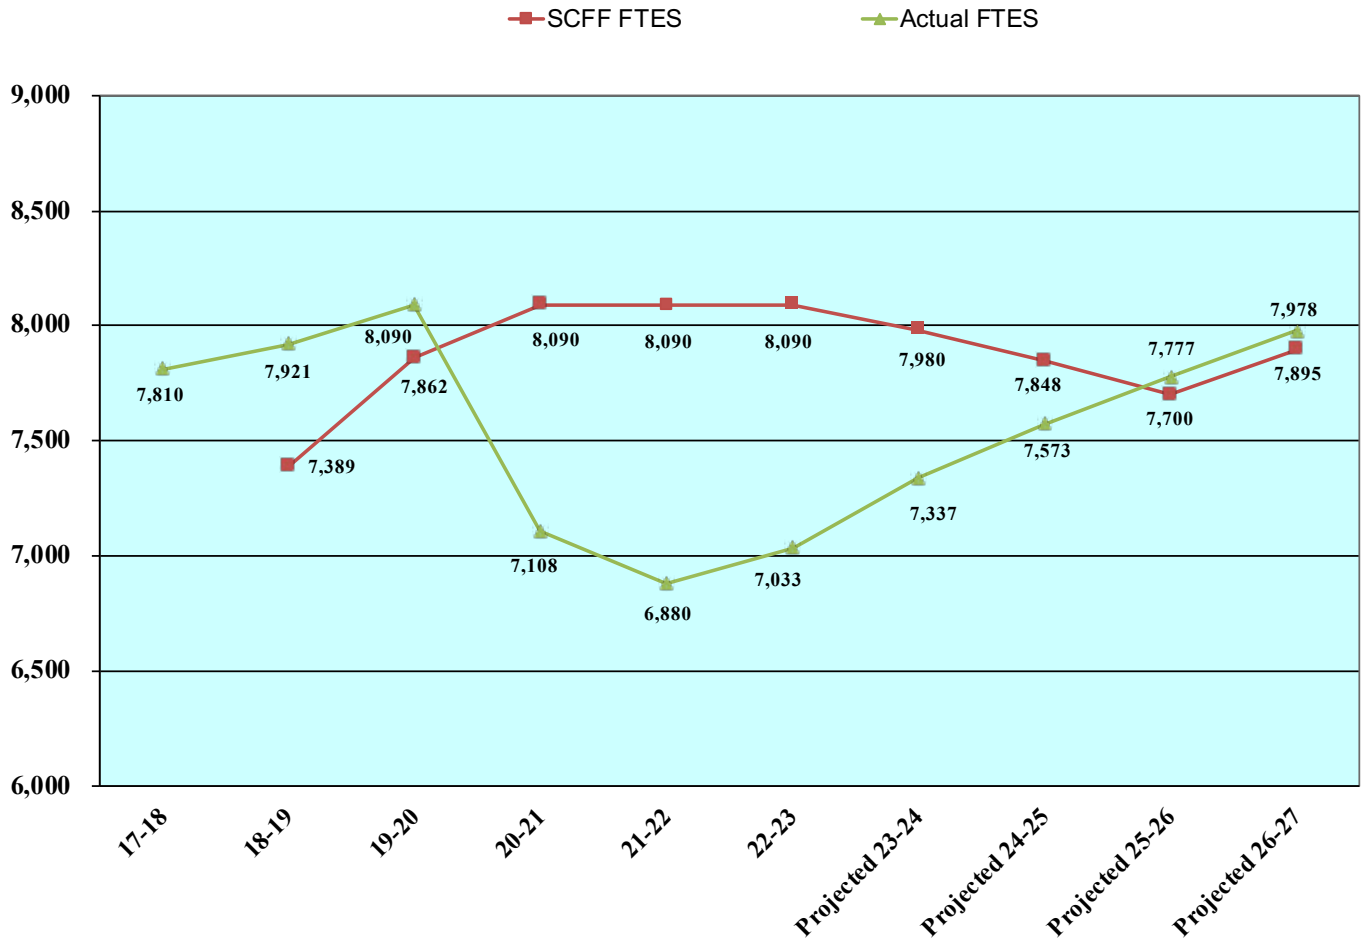

# DISTRICT REVENUE AND THE STUDENT CENTERED FUNDING FORMULA *(cont.)*

Traditional credit FTES are calculated on a three-year average for SCFF purposes. Other FTES (special admits, incarcerated, noncredit) are funded on current year counts, only. The District's FTES is likely to decline over the next few years as the ECA FTES begin to phase out of the formula. Strong growth in FTES is needed to avoid stagnant funding growth over the next few years.

This chart shows the SCFF FTES (including 3-year average traditional credit), and our actual annual FTES for recent years through 2025–26.

Each year a District workgroup sets the FTES targets for a five-year period. The targets are presented for review and approval in the Enrollment Management Committee and the Planning and Budget Committee. The five-year period includes the current year and four additional years aligned with the five-year budget projections.

The charts below show the FTES targets that were developed in the spring.

# REVENUE

The District's unrestricted general fund revenues for 2024-2025 are estimated at \$81.9 million. Approximately 88.9% of the District's total revenue is directly from apportionment. The remaining 11.1% is from other sources (e.g., state lottery, interest, community program revenues, etc.), many of which are also based on FTES.

The chart below depicts the District's unrestricted general fund revenues for 2024-2025:

## Gifts Received from the Cuesta College Foundation

The Cuesta College Foundation provides essential financial support for the college's programs, services, scholarships, and capital campaigns.

# EXPENDITURES

This budget incorporates the Budget Assumptions and the District's long-term obligations. As detailed in the chart below, 83.1% of the District's expenditures is committed to employee salaries and benefits.

### CalPERS and CalSTRS

Among the most significant fiscal challenges the District has faced in recent years is absorbing the increased costs of CalPERS and CalSTRS contribution rates. In 2013–14, the PERS contribution rate was 11.44% and the STRS contribution rate was 8.25%. As of 2024–25, these rates will have grown to 27.05% and 19.1%, respectively. The District will once again need to absorb large new costs for the 2024–25 year.

### CalSTRS

The 2014-15 state budget approved annual increases to the CalSTRS employer rates from 2014-15 through 2020–21. The 2020–21 state budget reduced the planned STRS contribution rates for 2020–21 and 2021–22 to help districts manage difficult fiscal times. However, the state's mitigation of the employer rate ended in the 2022–23 fiscal year. The contribution rate for 2024–25 will remain at 19.1%.

### CalPERS

Each June, the California Public Employees' Retirement System (CalPERS) Board meets to review the pool actuarial study to set the employer rates for the following fiscal year. For fiscal year 2024-25, the employer contribution rate is set to increase from 26.68% to 27.05%.

Similar to the treatment of CalSTRS, the state reduced the employer contributions by approximately 2% for the 2020-21 and 2021-22 fiscal years. The 2021-22 rate was 22.91%, but grew significantly to 25.37% for the 2022-23 fiscal year. The rate for 2024-25 further increases to 27.05%. CalPERS provides estimated changes in future employer contribution rates over a five-year period. The chart below shows the estimated percentage changes and the corresponding fiscal impact of the increases to the District. As currently scheduled, the rate will increase each year until 2027-28, though this is subject to change based on investment returns and other factors.

# DISTRICT RESOURCE ALLOCATION PRIORITIES

The Planning and Budget Committee completes the prioritization and forwards the list to the Superintendent/President's Cabinet. After careful consideration, the Superintendent/President makes the final funding determination. This process is described in more detail in the Annual Budget Process section.

# LONG-TERM OBLIGATIONS

---

## THIS FINAL BUDGET INCLUDES THE FOLLOWING LONG-TERM OBLIGATIONS:

### Compensated Absences (Vacation)

The District permits a maximum of two years vacation accrual as outlined in the collective bargaining agreements. Employees cease to earn vacation hours when they reach the two-year maximum.

### OPEB (Medical)

The District has a total OPEB liability of \$1,944,782 as measured by an actuarial study as of June 30, 2023. The liability is updated each fiscal year to reflect the annual actuarial study.

### Load Banking

Full-time faculty may bank work hours that are in addition to the faculty member's regular assignment in lieu of compensation for additional work in order to accumulate paid time off in a subsequent academic semester or semesters. No more than the equivalent of two semesters of the faculty member's regular workload may be banked and banked hours may be retained for a maximum of three years. Load banking is not carried as a general fund liability (per the recommendation of our auditors) and any expenses arising from the use of load banking are absorbed into that year's budget.

### CalSTRS and CalPERS

New accounting criteria issued by the Governmental Accounting Standards Board significantly changes the reporting of public pension liabilities for community colleges. Both the CalSTRS and CalPERS pension plans are underfunded. The new standard requires the District to report a liability for its proportionate share of the net pension liability. As of June 30, 2023, the District's share of the net pension liability was \$61,302,111. This liability is recorded on the consolidated financial statements and does not impact the general fund.

# MULTI-YEAR PROJECTIONS

The five-year budget projections do not assume significant changes at the state or local level. These projections are provided to enhance District planning. Future changes to revenues or expenditures will alter the projections and impact the net ending balance. For example, these projections do not make any assumptions about future negotiations with employee groups beyond the 2024-25 fiscal year. Any negotiated compensation agreements will increase expenditures and reduce projected ending balances.

**Assumptions are based primarily on Governor Newsom's May Revision proposal for the 2024-25 fiscal year and may change prior to the final budget. Some key assumptions over the projection period include:**

- SCFF revenues assume the District will be in stability for 2024-25
- Annual property tax increases of 3.5%
- 1.07% COLA in 2024-25 and 0% for the out years
- Salary savings of \$500,000
- Increases incorporated to reflect higher insurance costs
- Other technical adjustments
- Annual increases of \$250,000 in salary costs for step/column/longevity increases
- Annual increase in other operating expenses of 1% (contracts, etc.)
- A deficit factor of 1% in case of a state shortfall in revenues

The District's required reserve for 2024-25, based on BP 6200, is \$13,071,776. The contingency is \$23,515,185 and the PARS post-retirement benefits trust currently holds \$7,403,653. Total reserve and contingencies equal 46.7% of expenditures. Much of the contingency accumulated over time can be attributed to one-time unrestricted fund savings earned through vacant positions since the pandemic. The District is planning cautiously given the uncertainties surrounding enrollment, the state's budget volatility, and adjustments to the SCFF calculation.

### DEBT SERVICE FUNDS

Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest. Debt Service Funds should be used if current financial resources are being accumulated for principal and interest payments on general long-term liabilities that will mature in future years.

The District has the following Debt Service Fund:

#### **General Obligation Bond Interest and Redemption Fund**

# OTHER FUND BUDGETS *(cont.)*

## *Debt Service Funds*

### General Obligation Bond Interest and Redemption Fund

The District passed a \$275 million General Obligation bond in November 2014. Debt payments will be made from this fund. The San Luis Obispo Tax Assessor will collect \$19.25 per \$100,000 of assessed value from property owners. The revenue collected will be deposited into this fund and annual debt payments will be made from this fund.

## *Special Revenue Funds*

---

### **SPECIAL REVENUE FUNDS**

Special Revenue Funds account for the proceeds of special revenue sources whose expenditures are legally restricted. Special Revenue Funds encompass activities not directly related to the educational program of the college, but provide a service to students (such as the Children's Center). Such activities may provide non-classroom or laboratory experience for students and incidentally create goods or services that may be sold. In the process of creating the incidental goods or services, expenditures are incurred in addition to those necessary solely for the educational benefits of students. These expenditures are charged against revenue received as a direct result of the operations. Other instructional expenses are accounted for as part of the General Fund.

The District has the following Special Revenue Fund:

#### **Children's Center Fund**

## Special Revenue Funds

### Children's Center Fund

The District maintains a licensed Children's Center on both the San Luis Obispo and North County sites. The San Luis Obispo Children's Center has two preschool classrooms and one toddler classroom. The North County Children's Center has one preschool classroom and one toddler classroom. The centers are used as a laboratory by students studying Early Childhood Education. The Children's Center provides childcare services for Cuesta College students to allow them to pursue their educational goals. The Children's Center is self-funded and does not require General Fund assistance.

### 2014 General Obligation Bond Project Fund

The District passed a \$275 million general obligation bond in November 2014. The bonds will be issued in four separate series and expended over a twelve-year period. The first series of bonds (\$75 million) was issued in March 2015. The second series of bonds (\$73 million) was issued in February 2018. The third series of bonds (\$70 million) was issued in February 2021. The fourth series of bonds (\$57 million) was issued in January 2024. The proceeds from these issuances have been deposited into this fund.

### INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods or services provided by one department or organizational unit to other units on a cost-reimbursement. While the use of Internal Service Funds is not required under GAAP, they may be useful to identify and manage costs associated with particular services (e.g., self-insurance programs, duplicating and printing services, data processing, purchasing, motor pools, and central stores) and allocating such costs to user departments. By using the full accrual basis of accounting and flow of economic resources measurement focus, they can measure and recover the full cost, including depreciation of fixed assets, of providing goods and services.

The District has the following Internal Service Funds:

**Property and Liability Self-Insurance Fund**

**Dental Self-Insurance Fund**

**Vision Self-Insurance Fund**

### Property and Liability Self-Insurance Fund

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The District contracts with the Bay Area Community College District Joint Powers Authority for property and liability insurance coverage. There is a cost of a \$10,000 deductible per claim. Settlement claims have not exceeded this commercial coverage in any of the past three years.

### TRUST FUNDS

Trust funds are used to account for assets held on behalf of another party in which the District has some discretionary authority for decision-making or responsibility for approving expenditures.

**Trust funds are appropriate when one or more of the following conditions are present:**

- There is an agreement granting the District discretionary authority.
- There are contractual or regulatory conditions restricting the use of the funds or requiring the District to exercise a management role or report the results of operations in its financial statements.
- There is a compelling reason to measure operations (revenues, expenditures/expenses, and fund balance) and report the results in the District's financial statements. Examples of compelling reasons may include the materiality of the revenues and expenditures expenses, or the usefulness of the information to the readers of the financial statements.

The District has the following Trust Funds:

**Associated Students of Cuesta College Trust Fund**

**Student Representation Fee Trust Fund**

**Student Center Fee Trust Fund**

**Student Financial Aid Trust Fund**

**Scholarship and Loan Trust Fund**

**PARS Post-Employment Benefits Trust Fund**

**Co-Curricular Trust Fund**

## Trust Funds

### Associated Students of Cuesta College Trust Fund

The Associated Students of Cuesta College (ASCC) operates as an Associated Students Trust Fund of the District, as provided in Section 7665 of the Education Code. The program is managed by the Director of Student Engagement and the Vice President of Student Success and Support Programs. ASCC has its own constitution and bylaws. Student funds are managed in accordance with District procedures. Student representatives decide how funds are to be used for the benefit of the students of Cuesta College.

The Associated Students of Cuesta College generate funds through an association fee of \$10 per student, per semester. Additional funds are raised through cafeteria commissions, interest income, and other fundraising activities. The ASCC budget serves as support for campus programs: athletics, performing and fine arts, child care, tutorial, transportation, job placement services, the student newspaper, book loans, and grants.

### Student Center Fee Trust Fund

Students voted in 1990 to authorize the collection of a Student Center Fee to build a student center. The fee is \$1 per unit up to \$10 maximum per year. Initially, the fees were used to make payments on the debt issued to construct the student center. As of 2017, the debt has been fully repaid and fees collected will now be used for repairs and improvements to the building.

### PARS Post-Employment Benefits Trust Fund

The PARS Post-Employment Benefits Trust Fund is used to account for funds set aside in an irrevocable trust for offsetting the impacts of the rising PERS and STRS employer benefits costs. In December 2017, the Board of Trustees approved a resolution authorizing participation in the trust. The District made an initial investment of \$3 million into the Vanguard Conservative Fund. An additional \$3 million was invested into the Balanced Strategy Fund in April 2022. The District has the option of making additional investments as funds become available.

## *Agency Funds*

---

### AGENCY FUNDS

Agency funds differ from trust funds in the degree of discretion that may be exercised. In agency funds, the agreement or instrument allows the district or college little or no discretion. As a result, agency funds are purely custodial in nature (i.e., assets equal liabilities; no fund equity exists). Agency funds are appropriate when all of the following conditions are present:

- There is an agreement granting the district little or no discretionary authority.
- There are no contractual or regulatory conditions restricting the use of the funds or requiring the district to exercise a management role or report the results of operations in its financial statements.
- There is no compelling reason to measure operations (revenues, expenditures/expenses, and fund balance) and report the results in the district's financial statements. Examples of compelling reasons may include the materiality of the revenues and expenditures/expenses, or the usefulness of the information to the readers of the financial statements.

The District has the following Agency Fund:
