The following definitions, involvement levels and procedures for faculty, staff, and students of Cuesta College are established to ensure the right to participate in governance and to express their opinions outside of the arena of collective bargaining.

I. **Faculty Participation**
   
   A. **Definitions**
      
      1. Faculty - Faculty means those Cuesta College employees who are employed in positions that are not designated as supervisory or management and for which minimum qualifications for hire are specified by the Board of Governors, California Community Colleges.
      
      2. Academic Senate - Academic Senate denotes an organization formed for the primary function of making recommendations to the administration or Board of Trustees with respect to academic and professional matters.
      
      3. Collegial Consultation - Collegial consultation means that the district governing board shall develop policies on academic and professional matters through either or both of the following methods, according to its own discretion:
         
         (1) Relying primarily upon the advice and judgment of the Academic Senate (see B.1 below); or
         
         (2) That the district governing board, or such representatives as it may designate, and the representatives of the Academic Senate shall have the obligation to reach mutual agreement by written resolution, regulation, or policy of the governing board effectuating such recommendations (see B.2 below).
      
   
   B. **Academic and Professional Matters**
      
      1. Title 5 directs each governing board of California community colleges to, “...adopt policies for the appropriate delegation of authority and responsibility to its academic senate.” In section 53203 of Title 5, the governing board is directed to adopt procedures for relying primarily or mutually agreeing with the senate on recommendations. These directives provide a shared governance role for the faculty in formulating recommendations to be presented to the Board. In light of these considerations, the Board agrees to rely primarily upon policy and procedural recommendations of the Cuesta Academic Senate (when the following matters are at hand):
         
         1. Curriculum, including prerequisites
         2. Degree and certificate requirements
         3. Grading policies
         4. Standards regarding student preparation and success
         5. College governance structures, as related to faculty roles
6. Faculty roles and involvement in accreditation process
7. Policies for faculty professional development activities

Recommendations shall be presented to the Board of Trustees using a standard procedure. The Academic Senate President shall provide information to the Superintendent/President or the appropriate Vice-President concerning placement of items on the Board of Trustees’ agenda. The Academic Senate President or designee shall present these recommendations to the Board of Trustees for information, action, or both.

The recommendations of the Senate will normally be accepted, and only in exceptional circumstances and for compelling reasons will the recommendations not be accepted.

If a Senate recommendation in these areas is not accepted by the Board of Trustees, the Board of Trustees or the Superintendent/President as the Board’s designee shall promptly communicate the reasons in writing to the Academic Senate upon request.

2. In addition to the matters in B.1, the Board or its designee and the representatives of the Academic Senate shall have the obligation to reach mutual agreement by written resolution, regulation or policy on the following academic and professional matters:

1. Educational program development
2. Processes for program review
3. Processes for institutional planning and budget development
4. Policies regarding student preparation and success
5. Other academic and professional matters as agreed upon

In instances where the governing board elects to provide for mutual agreement with the Academic Senate, and agreement has not been reached, existing policy shall remain in effect unless continuing with such policy exposes the district to legal liability or causes substantial fiscal hardship. In cases where there is no existing policy to be changed, the governing board may act, after a good faith effort to reach agreement, only for compelling legal, fiscal, or organizational reasons.

C. **Delegation of Authority to the Academic Senate**

1. The appointment of faculty members to serve on college or district committees, task forces, or other groups dealing with academic and professional matters, shall be made, after consultation with the Superintendent/President or designee, by the Academic Senate.

2. While in process of consulting collegially, the Academic Senate shall retain the right to appear before the Board of Trustees to present the views, recommendations, and/or proposals of the Senate.

D. **Scope of Regulations**

Nothing in this section shall be construed to impinge upon matters subject to collective bargaining. The requirement to consult collegially shall not limit other rights and responsibilities of the Academic Senate which are specially provided in statute or other regulations.
II. **Staff Participation**

A. **Definition**

Staff includes all college employees except faculty, short-term and/or substitute classified employees, and student employees. Management and non-management positions or groups of positions shall be separately defined or categorized.

Staff shall be provided with opportunities to participate in the formulation and development of district and college policies and procedures, as well as in those processes for jointly developing recommendations for action, that have or will have a significant effect on staff. Those areas that have a significant effect on staff will be determined by the Board of Trustees in consultation with staff. Prior to taking action on such matters, the board will provide staff the opportunity to participate in the formulation and development of those matters through appropriately determined procedures. Moreover, the board shall give every reasonable consideration to recommendations and opinions of staff.

C. **Procedures for Participation**

Participation by staff in college governance will be facilitated primarily through the college's committee and council structure which is constituted to be representative of all employee segments and job classifications.

The selection of staff representatives to serve on college and district task forces, committees, or other governance groups shall, when required by law, be made by those councils, committees, employee organizations or other staff groups that the governing board has officially recognized in its policies and procedures for staff participation.

The appointment of staff to committees, task forces, or other groups, shall be done by the college President in consultation with staff groups that have been officially recognized as requiring participation.

The committees and councils make recommendations on college matters to an assigned cabinet member responsible to the liaison between the committee or council and the cabinet.

D. **Scope of Regulations**

In developing and carrying out policies and procedures pursuant to these regulations, the governing board shall ensure that its actions do not dominate or interfere with the formation or administration of any employee organization, or contribute financial or other support to it, or in any way encourage employees to join any organization in preference to another. Procedures for staff participation shall not intrude on matters within the scope of representation under Section 3543.2 of the Government Code.
