This Marine Biology course will be offered fully in person and is taught in California, US, and abroad in Baja California, Mexico. All students enrolled in the lecture portion of the course (Marine Biology 222) must also enroll in Marine Biology Lab 222L. These two courses are offered as a cohort. The fast-paced field course meets June 12 - July 1, 2025. Students will learn and live in Mexico from June 15 to July 1, 2025. Before registering for this course, all students must schedule a meeting with Professors McConnico and Favoreto to discuss the course requirements and expenses. This course involves extensive fieldwork in remote regions of Mexico. Participating students must swim, travel on boats, snorkel in the ocean, live/study communally in a rural field station, respect Mexican culture and comply with local laws and policies. Students are expected to work on field projects and research a special topic to present to the class. There will be no internet or wifi access for most of the field portion of the course. Students must supply their own wetsuit, snorkel gear, and personal supplies. There is a course fee of \$1,600, which must be paid in full by May 2025. Any student who did not pay this fee on time may be subject to an additional \$4,000 fee to participate in the course. This course fee does not include course units, passport fees, meals while in transit or personal expenses. A US passport valid through January 1, 2026 is required for US citizens. Non-US passport holders will need the required documents for entering Mexico and returning to the USA. All enrolled students must attend a mandatory zoom meeting on the evening of May 6th.

BIO 222L - MARINE BIOLOGY LABORATORY

Provides a field and laboratory survey of marine biodiversity and ecology, with emphasis placed on exploring local marine life and habitats. Laboratory exercises focus on the identification and observation of marine organisms. Field labs include kayaking, nearshore habitats, tide pooling, and visits to aquaria and/or museums. This course complements and enhances Marine Biology lecture (BIO 222), through hands-on field and laboratory investigations. Prerequisite: Completion of or concurrent enrollment in BIO 222.
