Please recognize that a hybrid class does require just as much time as a traditional face to face course. It is very important that you keep up with the readings, assignments, quizzes, tests, discussions, etc. Once you get behind it can be a challenge to catch up in this course.

I **do not** accept any late assignments no exceptions.

If you have questions regarding the class, please feel free to contact me at the email listed above and I will do my best to answer your questions or refer you to someone that can answer your technology needs.
