Dear Colleagues,

Please join us for two important District wide events:

Education Master Plan Addendum - Challenges and Institutional Goals Workshop

At this workshop we will evaluate our data both internally and externally, and identify our challenges and from these our institutional goals.

The 2010-2013 Strategic Plan Revision Workshop
March 21, 2012 1:00-5:00 PM. 5401/N1013

At this workshop we will revise the 2010-2013 Strategic Plan based on our identified institutional goals from the workshop above.

Your participation at either, or both of this workshops is welcomed and encouraged. It is important to have all voices at the table. These workshops will help the district improve these plans and our integrated planning processes. We hope you can attend.

We look forward to seeing you there,
