Excerpt from my CPPR (pg.16):

Club Representative Assessment

The coordinator worked with the Office of Institutional Research to gather academic data on club representatives. Since 2008, the data below highlights that our club representatives are more successful than non-club members which links to Institutional Goal 1.

	Club Representatives	Non-Club Members
Credit Load	11.38	9.030
Units Earned	9.5	4.1
Cumulative GPA	2.76	2.47
Course Success Rate	78.3	69.7

Thanks! Here's another request regarding the Self Study and the dreaded "evidence." The following sentence needs "evidence" per Eva Conrad:

Academic performance of club representatives has been measured and found to exceed that of the regular student body.
