At the end it seemed to have 2 more questions for me after I thought I was finished--I could see some clicking out of system thinking they were finished when they were not. 1

1)Your drop-downs when selecting previous universities attended was difficult because of the non-intuitive abbreviations 2) I entered my daytime phone which is work and it shows up on the summary as my home # 3) I am 52 years old. How the \*\*\* do you e 1

A bit awkward to figure out where to go at first. 1

a bit confusing on what to do if you are currently a high school student... what do we do with our permit? do we fill out the application first? when do we register? etc. would be better if there was a list of what to do first and so on so it's like tak 1

A couple of the questions were worded in a confusing way. They were the ones about employment on a campus. I'm not sure what exactly they asked. Thank you!	1
A detailed list of classes involved with each major would be helpful.	1
A few of the questions may seem confusing to people I suggest an explanation for each complex question.	1
a little confusing for me	1
A little confusing in regards to degree status. I am concurrently enrolled at another college and that option is not available.	1
A little frustrating for special admissions (highschool enrichment) but otherwise took me under 10 minutes)	1
A little redundant and boring yet convenient.	1
a little unclear about having to list all colleges Ive attended. It says you may put up to four. Doesnt say list all.	1
A lot of questions seemed redundant or unnecessary but I realize they surely are required for legal reasons.	1
A number of the questions seem redundant.	1
A small place for comments or questions would be nice at the end of the application.	1

absolutly magnificent!	1
Account logins are confusing.	1
after calling in for info on the college i did not find the phone call usefull no one seemed to have any information	1
after clicking on a box and entering somethin when I scroll down using the mouse to the next field it changes my answer...	1
After I finish my application at CCCapply the text said I'll be able to access all the link and registered this process has not allowed me after my several attempts	1
after making choices in the drop down boxes the answers would change when goin to the next question.	1

After submitting the application the first time the message said "Page Temporarily Unavailable". So I sent an email to the address indicated and asked how to proceed and did not get an answer. I did wait a few hours and was glad to find my application sa 1

After the online application is complete it should ask if you would like to begin enrollment (if applicable) and present all the documents necessary that need to be filled out when you go to Cuesta personally for both transfer and 1st time students. 1

All I wanted to do was apply for an Emeritus class; I didn't feel it was necessary to go through all my college history. When I tried to bypass this section the page wouldn't save until I filled in at least one college. What about people who have never a All instructions were brief and to the point. I accomplished what I needed to accomplish quickly and efficiently. 1

All of my information was saved. Yes!!! 1

all of the information was easy to understand to answer each of the questions 1

Allow carry over of address/phone etc from previous applications 1

Altho it was hard to find this section on the web once I found it it was just a matter of following the directions. Thanks so much! I'm disabled and this really helped me a great deal!!! 1

Although the site was workable it is not preferable to being able to ask someone questions in person. 1

AMAZING 2

amazing. 1

amazingly quick and easy 1

an inefficient waste of time 1

An optional comments section may help for those with exceedingly differing situations from what the application expects. 1

an undecided major choice 1

Anyone who can't manage to complete this process has no business attending college. 1

Anything can be improved. Simply because it is simple to use does not mean adjustments cannot be made. 1

Anything to avoid long lines and driving to and fro.	1
Application did not allow for unknown dates such as graduation days vs months. Not good.	1
Application is much more user friendly than my current college's online application process.	1

Applying online was quick and easy to understand.	1
As a first time online student I found the process easy and straight forward.	1
As a high school enrichment student there was no option to choose no major.	1
As a high school student enrolling for Cuesta certain parts were slightly confusing but overall it was very helpful.	1
As a response to this query "Enrollment status as of 8/15/2011: " You need an option for student you have completed the previous term.	1
As a senior the information asked was easy to understand. I would like to see senior helps the process can be daunting for us older students.	1
As I am 52 years of age many dates of past education are unclear to me I hope this doesn't affect my application process.	1
asked me for my email to much but other than that it was great	1

At one point I was hitting the back space button to erase what was in a box but instead it booted me back a page and erased all the information I had typed in.	1
at the end it would be helpful on what your next steps should be	1
at the end of the survey it says "please verify your stuff is correct " but there's no link/info displayed to verify your stuff is correct...so i just hit submit.	1
Awesome	2

clumsy compared to other online forms/sites colleges should start doing separate sectors of "white" races. what if there was a huge category called "black" everyone would be up in an uproar. i want to be able to classify which part of europe my ancestors originated from just like the "asian" categ	1

cuesta sounds like an amazing school. i really hope i start there in fall 1

Cumbersome using the college find section in attempting to copy and paste for my undergrad and grad schools I got booted off and had to repeat that page several times as it doesn't save until the entire page is completed. The online app took much long 1  
cumbersome but useful 1

Days of the month for some questions like "The day graduated from high school." seem irrelevant. 1

Dennis Judd and Mr. Paulson are the MAN!!! 1

Descriptions would be helpful concerning career and outside opportunity interests 1

Despite all the resources at their disposal it has been my experience that the website layout is much more helpful and easy to navigate than those for CSU and especially UC schools. 1

Entirely too much data is collected. This is a community college. If someone is over the age of 18 they should be able to: 1) Identify themselves 2) Provide contact information 3) Register for the classes they want to take. PERIOD!	1
es muy facil hacer la solicitud de este modo por el interne	1
es muy satisfactori	1

finding the application process was not as easy as i though i got lost in frequently asked questions...	1

Finding the link to apply was a little hard some of the links take you to information about applying but not the actual application i would make the link to the actual application a little more pronounced and visible.	1

fine job	1
first i called the no. co campus and was told i could come in and apply in person on paper but when i arived they told me the only way was on line. i figered it out with help. looking at the info on it said you could apply on paper at the campus . i wish	1
First log in page is confusing. You need to go WAY to the bottom to find the correct button to start process.	1
first time students can easily get confused with application process. to many passwords username ID #.	1
First your web site is flawed and has terrible customer service help. Secondly it is NOT user friendly! Third your site is not secured completely why is it so hard to get a good effective application that does not make you pull your hair out trying	1
For a busy mom this was very easy and a huge convenience for me. Thank you!	1
For me I go and will continue to go to a 4-year university till June 2011. The application does not really allow for that route. When I came to the education page it was very difficult to accurately describe what I am doing since it would not allow me t	1
For registration purposes there needs to be a suffix block(i.e Jr/Sr)to avoid confusion	1
For someone that was reapplying it was very simple and I like the fact that it had most of my information still filled in.	1
for the list of "programs offered/ classes" that would serve to interest me there were no descriptions. this would help to narrow my uncertainty in selecting the right program if i were unsure of one or more of the programs offered that would apply to m	1

For the sake of Portland community college students who may be looking to transfer to Cuesta or any other california colleges please add Portland Community College (PCC) to your college/university list. Other than that this was a 5 star app. 1

Forced to submit wrong information to complete application. Some of the dates needed for application were over 35 years ago the High School I attended no longer exists and the name of the city where it was located has been changed. Only option to proble 1

Got stuck on the college page. Would not let me pass to Residency page unless I said I had not attended ANY college (kept asking for the college I attended other than Cuesta) this was frustrating and the only question which I answered not accurately.	1

Great job much easier then when I registered over 13 years ago! I had to spend ALL DAY at the college registering!	1
Great program but incredibly racist. I mean extremely racist. Especially in that area asking my race. I'm white but I still felt that it was neither cool nor politically correct by any standard. I strongly suggest that any racist implications or secti	1

Had some trouble using this application at home. Would not save progress and made me restart several times. Other than that is was very simple and convenient.Thank you.	1

Had to re-apply for the summer term because I didn't take any spring classes. Really appreciate that all of my information was saved from spring application because it saved me tons of time from having to type it all back in again. Very easy process to co	1

Hard to navigate and understand how to register.	1
hard to navigate to the application process other than that great site!	1
hassle free	1
Hated it too many stupid questions	1
having it online makes it more convenient	
however cuesta is quiet confusing an when i was trying to fill out the application it sent me in circles. Additionally it's difficult to find registration times or get in contact with anyone.	1
Help desk was great	1
Hey i have been trying to go back to school for about 4 years now and every time something comes up i need a counselor to please make sure i get signed up please	1

how do u know when application is granted	1
I admired the straight forwardness of this application.	1
I am a 1st year student at Cuesta but when I enter that it makes me say I'm a 1st year college student that left high school why not allow me to say I'm attending Cuesta?	1

I am a 55 year old student who was born and raised in California. There should be a way to eliminate the need to answer page after page of questions about my parents. I checked the "married" option there should be no more "parent information" questions n 1

I am a full time student at a CA State University applying to Cuesta just to take an extra class during the summer. It was a bit tricky because there were no options for those who were taking classes along side classes at a different university. 1

i am a lifelong learner that has been off or 2 or 3 terms. Why do i have to re-enter my educational history? this type of data should be standardized between application processing vendors. It's a tedious process otherwise. 1

I am a returning adult student. The computer database knew most of the requested info and automatically inserted it (great feature) but strangely did not apply other data that it should have already known (e.g. knew I went to Lemoore HS but didn't rem 1

I am a returning student and was dissapointed I could not have my account re-activated. 1

I am a returning student that missed one year so now I must fill out a new registration application. I find this to be a total waste of time for everyone with the exception being that totally worthless bean counter that thought this up. 1

I am a returning student- I love Cuesta College! Even though I am much older than most students I find myself completely confident in the process of higher learning. Thank you!! 1

I am a soldier staioned over seas on assignment and found this to be a very easy and thorough way to complete my application.. Look forward to my acceptance 1

I am a student who did not get an high school diploma because I was in Special education. It was difficult to know how to put this in the application. 1  
I am currently attending Ashford University and was unable to select that school or select not on the list as instructed to do. This process is a little frustrating. 1

I am currently working on completing my BA degree at another institution. Yet my highest degree obtained is AA it would not let me complete the page listing with colleges saying that I was working on a BA and my highest is an AA. 1  
I am excited about goimng back to school and the ease of the application process gives me some needed encouragement. 1

I am excited to begin college this year in the fall! :) Greatly looking foward to this experience. 1  
I am glad I don't have to drive to the college to turn in applications; on-line application saves time and money. 1

I am grateful that your site saves information it turns this tediously long application into a breeze. 1

i am gratefull for Cuesta college's services and look forward to being a Cuesta college student. 1  
I am impressed with how easy the online application process has been. The whole process was simple uncomplicated and straightforward. Great job! 1

I am in the process of applying for the most convenient program for returning education. I work full time and have two jobs. This is very user friendly and convenient to use and I am delighted that you offer the Library Services program online! 1  
I am not a "computer-person" but this was very easy. Thank You 1

I am not comfortable using my SS #. I would suggest that at the start of the process if a student does not want to give the SS# there be a link that would assign a student ID Number. 1

i am not sure if i applied for my particular classes yet???

1

I am really excited to start attending this school

1

I am reapplying after an absence. It was very nice to have fields pre-filled on the form so I didn't have to re-check dates etc. Thanks!

1

I AM SATISFIED WITH THE SERVICE THANKS.

1

I am taking just one Health Ed class to satisfy requirements for a teaching credential at U. of La Verne. Did not see anything of this nature as a choice in the "Major/Goal" section of the application.

1

I am unhappy that you are now requesting 'Parent/Guardian Education Level'. I find it irrelevant if my parents were college graduates or not. You should give an option of not stating any answer.

1

I am very happy how fast it was to apply thank you

1

I am very satisfied with this application i love how their is sports and a variety of classes a student can take.

1

I am very thankful that I am finally doing something for myself

1

I am white and hispanic but you did not have one that applied directly to me. As you probably know you had Other hispanic and White non hispanic. I would appreciate if you listed White and Hispanic in the future. Thank you.

1

I applied last year so having all the information pre-filled out was very useful and was very easy.

1

I applied using this online format Dec.4th it is now Dec. 13th and no email or mail information regarding registration has been issued. It is really disturbing having no response about how to proceed.

1

I appreciate all the pre-filled sections from previous application times of mine.

1

I appreciate that some of the information needed for my re enrollment was previously entered and retained by Cuesta. Very time-consuming though necessary. Thank you! Tricia witt

1

I appreciate that the website saved my information from previous uses. I decided to start schooling during Summer quarter and I like that I didn't have to fill everything out again. 1

I appreciate the fact that all of my information carries over from one application to the next. 1

I appreciate the fact that the questions are straight to the point and easy to comprehend. 1

I appreciate the fact the information was saved from a prior application so I only needed to make a few changes. 1

I appreciated not having to completely fill out the application because I had missed a term. It was nice just going through to change those that needed changing. 1

I appreciated that the application was quick and easy to understand. 1

I attended "Calvary Chapel Bible College" for two years but that school was not listed so I was unable to put that on my application. Frustrating. Besides that it was smooth and easy. 1

I attended a college that was not on the list irregardless if you take the credits it was wyotech I attended Cuesta in 2008 and am trying to return to take a class in the Fall. In order to register I was directed to another website which handles applications for many of the community colleges in CA. On that page I was unable to update/change my email 1

I attended Twain Senior high which was not available but Mark Twain high school was a choice. I was unable to type in the school I attended but could not progress until I filled in something so I was forced to pick not type it in which is one draw back. O 1

I believe either my graduation information or degree information was asked for twice. 1

I can not wait to go to Cuesta 1

I can't wait to go to college! 1

i cant wait for school ;) 1

I choose not to attend many of the CSU that I was offered admission so that I could finish at Cuesta. As an enrichment student at Cuesta College I new that I wanted to be able to obtain an Associates from Cuesta I believe that Cuesta is a college that I completed the application today. School is starting tomorrow but my email came to me that my ID/Username and Password would come in the mail in 1-2 weeks. This is totally ineffecient. I cannot register online tonight if I tried. Just a thought on c

I could not enter "attending high school and college at the same time" and also enter the college I am curently attending (the same as the one I am applying to for a future term). I had to leave off the colleges attended information. I could not find the college which I previously attended on the previous education screen (Le Cordon Bleu College of Culinary Arts Portland Oregon)

I could not find the Graphics Certifcate of Specialization on the lit of majors so I choose the Art History. This was the most challenging part of filing out the applicaion.

I could not remember my user name or password and did not get a email back from tech support so I had to keep guessing until I finally got it. Also after completing the 8 pgs application it said the service was to busy to submit it. I was going to exit ou I couldn't save my apartment number after passing the contact information and attempting to go back to modify it.

i couldnt find the school i went to. It is a independant study. all schools should be shown I currently attend a four year university and am just taking classes at the community college for credit. Entering a college without a degree was difficult and it took me two to three times to figure it out.

I did it from my iPhone that's how easy it was :)  
I did it!  
I did not see my student ID

I did not want to register for Fall of 2010 (due to the fact that it is currently September 16th \*very late\*). Spring 2011 was unavailable and I know that if I did not sign up today I may change my mind later. 1

I didn't have any problems with the application but it is to my understanding that students organized and designed this whole website and that it is hard to find certain info. Not me personally just maybe it needs to be organized in an easier format. 1

i didn't know what to put for my alien number. i have a work permit.and social security for two years. 1

I didn't understand some of the question since this was my first time applying but i started to get the hang of it. The question became very understandable 1

i didnt have a problem filling the application but i did have a problem finding the link in your cuesta web site. 1

I dislike reapplying each semester. If I've gone through the process once already it seems unnecessary to do it again. 1

I do not mind giving the school my social security number in person but do not want to do it online. It would be nice if there is a way to do that it is mentioned on the application. 1

I don't have any further questions or concerns. 1

I don't understand why I'm required to do this. Aren't the staff here to ehlp with registration? i don't want to. 1

I don't wants to go to Cwesta.... Merrrrrrr! Ablah.... it's shtupid. 1

I enjoyed Cuesta College's online application. It made it easy for me to apply to college for the first time. 1

I enjoyed how effortless and quick the online application was. Job well done! 1

I enrolled my daughter just a few minutes before I enrolled and I received her email confirmation - but was unable to then go and log her in! I will wait the 24 hrs. to see if that makes a difference but I don't think you should send the confirmation ema	1
I feel extremely uncomfortable about your having my social security number -- college databases have been breached. At least Cuesta only asks for the last 4 numbers.	1
i feel it gives you the opportunity to register with ease	1
I feel like this is very user friendly.	1
I feel that this application is very efficient and extremely easy to understand and follow.	1
I feel that this online application covered everything very well.	1
I feel that in the residency section the application should have asked what my living situation would be during my enrollment at Cuesta Community College. I will be 18 and I will be living with Adults who are not my legal guardians' however I myself p	1
I feel very comfortable with application thank you!	1
I felt it was very easy to use and complete.	1
I felt pretty indifferent towards it. Sorry.	1
I felt real good. And samart lifes good now!! :)	1
I felt that it was very quick and easy to follow.	1
I felt that this was a very informative and non stressing application.	1
I felt the application was very simple to use. I was very satisfied.	1
I felt the site was very easy to use.	1
I felt this online application was thorough and necessary. I was surprised and pleased.	1
I felt this was one of the most intuitive applications I have ever had to fill out online. Very easy and straight forward.	1

I felt very comfortable and secured by using this method of application process. I would gladly recommend this method to other students. It was very easy and took not a lot of time. I was very satisfied with my application process. 1

I find the sheer level of information I was required to disclose excessive and hearing about a past injunction against the XAP corporation for unfair business practice and the sale of user information to third parties does not inspire confidence that my i 1

I found it fairly straightforward and simple. That was good. 1

I found it very quick and affective. 1

I found the application quick and easy. This did not stress me out and i was content with the information asked. 1

i found this application to very easy compared to other online applications thank you so much for keeping it simple 1

I found this online application to be user friendly. It made applying for college less difficult than I expected and I appreciated that. 1

I found this site very pleasing I will recomend this on-line aplication to my friends thank you very much for your time Cuesta Collage. sinserly. Devon Sanders 1

I got blocked locked out or disconnected MANY times before I finally got the application completed. 1

I got confused when filling in my 'degree type' for my current college it was ambiguous if they're assuming i graduated or haven't yet everything else alright tho 1

I guess this is a good system but it took so much time to complete. 1

I had a blast 1

I had a good time 1

i had a great time looking forward to apps in the future 1

I had a hard time getting past the security question. I couldn't remember my answer because I didn't remember applying before. I would suggest making 2 or 3 security questions and allowing the user in if they get 2 out of 3 right. 1

I had a tough time getting started with the application process. 1

i had a very dandy time filling out this document :) 1

I had a very hard time finding the right college/university I previously attended. There was one that I did not list because I could not locate it there is no help button. 1

I had already used CCCApply for another college and once I logged in it filled out most of the application for me! Very helpful and easy to use. 1

I had applied before but my userid and temporary password did not work so I had to re-apply again. This is a bit confusing. 1

I had attended one other college for about a year and a half (of a 4-year program). I did not finish there and could not enter a graduation date. Your application program would not accept my entry without a graduation date so I had to delete that entire 1

I had problems with it bouncing me out of application and back to cccapply. I tried to fill out the form 4 or 5 times before I was able to get it completed. 1

I had spoke with someone from Cuesta and she told me all I needed to do was turn in my enrichment form. Then three weeks later they called me to tell me that i needed to apply online. I wish that I would have known that from the start. 1

I HAD THOUGHT THAT THE APPLICATION PROCESS WAS LONG AND TIME CONSUMING. TO MY SURPRISE IT WAS SO EASY AND QUICK. ONLINE APPLICATION IS THE WAY TO GO. THANK YOU SO MUCH. 1

I had to re-register to Cuesta for this upcoming semester after a change in my plans. This process was not as difficult as I had thought it would be to do all over again. Many of my previous answers were still there and I only had to change a few. Thank 1

I had to restart several portions of the application for reasons unknown--The website didn't always process my info. 1

I had trouble find out how to register for classes. You need to say go to PAWS somewhere more obvious. 1

I had trouble navigating the Cuesta College website to find the link for this application. I was satisfied witht he CCCapply link though. 1

I hate online applications. I have seen worse though. Well done 1

I have a student number at the collage and wanted to give it instead of my social security number but the system would not let me. 1

I have already applied to Cuesta twice and this was my third time. I don't think that I should have to continue to apply if I take one semester off to attend other schools. 1

I have also taken online classes with UNIVERSITY OF PHOENIX and they were not a College of choice on your drop down menu and I could not type in University of Phoenix Online 1

I have attended Cuesta a few times. I don't remember all the dates so I just put one semester I could remember. I hope that is sufficient. 1

I have attended Cuesta classes on and off since 1992. When WebReg began it functioned like floundering betta version of new web site very frustrating. At present I find it an exansion of the same thing. More information poorly organized. I'm a web-s 1

I have attended many schools high schools and college. It was difficult because of my unique situation to fill out this appication adiquetely. Some variations were not available for me to choose. I answered as closely as possiable. 1

I have attended two other community colleges so most of my info was already available. Very convenient. 1

I have been a high school graduate for 10+ years and have never looked into college. I was nervous to do so but this application process was fast and easy to understand. 1

i have been so frustrated trying to complete the process i feel like i went in circles. I just need to go in to do this. 1

I have been trying to log onto mycuest.edu for the past 24 hours and has told me every time that there is a problem with my application from CCCapply. very fed up 1

I have had trouble submitting my application because I would get to a certain point and then it would come to a page where it said "page temporary unavailable" It finally worked and then it was simple. 1

I have no comments 1

I have no comments. 1

I have none 1

I have none at this time 1

I have not gone to college in about 8 years. It is Nice to have easy understandable guidance to guide you where you need to go. Craig J. Cowell 1

I have spent several hours in a "loop" either on the computer or on the phone. It was a terrible experience 1

I have two programs I would like to take part in and on the question for that it only offered one. 1

I haven't attended school for many many years as a matter of fact upon my high school graduation we were still not allowed the use of calculators in the classroom...This advent of new technology has certainly made the process virtually painless however m 1

I haven't been back to Cuesta since fall of 2009 and it was REALLY nice that all my info was still in the system! Thank you! 1

I hold a Ph.D. degree from Rutgers University and am registering for a community program at Questa College (Tax Preparation)so that I can provide volunteer services. The application was far to cumbersome for someone in my position and I believe that a n 1

I hope I get in! 1

I hope I go to Cuesta. Woouoooooooo. 1

i hope to be accepted and start to further my learning. The application was easy and understandable! 1

I hope to be accepted soon! 1

I just cannot figure out how to get my needed classes for that part is not all that clear. 1

I just want to enroll in a swim class 1

I just want to take a class over the summer but there wasn't an option for that under the major so I just had to put down the major for the class I'm planning on taking but I'm not sure if thats what I should have done. 1

I just want to take one class and it seems like a lot of hoops to jump through. 1

I kept having to type in my SS number when ever I went back to page 4 really pissed me off. 1

i like because its fast and i understad it. 1

i like doing it better online bacause its actually alot quicker and faster for me this way 1

I like how it does everything in real time. it is very organized and fast. Thank you! 1

i like how it saves my information from over the years. 1

I like it applying from home is very convenient. 1

I like lamp. 1

I like my foot on Tuesday only sorry. 1

I like that it saved my information from a previous application. 1

I like that the form automatically saves the information for the following applications. 1

I like that you guys make it so if you don't understand a question you are able to click on it to get a little more insight. It helps out a lot. 1

I like the online services I was excellent.	1
I like the retention of previous answers that clearly cannot change over time such as parents schools attended and the like that allows for efficient completion.	1
i like the step by step process. It is easy and simple.	1
I like using the online cuesta's application system	1
I liked applying online it was really easy and fast and would recommend it to everyone.	1
I liked how quick and easy I could get this done!	1
I liked I could use my CSU information	1
I liked that it retained my info from several years ago	1
I liked that it saved my information from my previous applications and I was able to use the information for the current application	1
I liked that the program could transfer original information from an existing application to your new application automatic. Outstanding!	1
I liked the program that was used to apply. However I think the cuesta.edu site needs to more clearly show the application process. The site needs to be more user friendly because I know for me it was very difficult to figure out where I actually enter m	1
I liked the survey in general especially the part that said I could estimate the approx. date I received my high school diploma. I'd like a check box to say that I will provide my SSN in person but not over the internet. I'm not comfortable entering my	1
I liked this online application	1
I live pretty far from either campus and this online application has made my life so much easier. Thank you! I look forward to returning to school!	1

I love Cuesta!	1
I LOVE LUPE	1

I love that my information was saved from the last time that I applied made it extremely easy to re-apply! Thanks!	1
i love this online application	1
I love you.	1
I loved how easy it was.... very useful for those of us that have a hard time applying in person. Great tool	1
i loved how it saved all my old information from when i was previously registered! so easy! :)	1
I loved the application. It is very easy to go through. I appreciate that it is a easy application to get through!	1
i mostly gimpse through the application. i think i did it right.	1
I need to update my information and there is no place to change the info. I used this program many years ago as a young adult who wasn't married. There was no place for me to update my email address or password etc. It was very difficult finding the info	1
I needed help understanding some of the questions (such as which perspective they were being asked from). I had to speak with two people to feel confident that I was getting the right information. Neither of them was the person in charge of admission appl	1
I needed to call Cuesta to ask how to begin this application. Not clear for part-time students. Once I started the application it was easy to follow and complete.	1
I never was told when I could register.	1
I only want to do a class for personal growth and I felt that the application did not offer a section to state that.	1
I prefer doing things in person.	1
I preferred the older website where I could click on the application from the home page and it would take me directly to the ccc.apply cuesta application instead of 2 more layers of web pages before getting to the application	1

I previously attended Cal Polytechnic College. The application website stated I already had an account yet did not find account through account retrieval with appropriate username or personal info. I created another account with the same personal info.	1
I really did like the online application it was very helpful and easy to do thanks.	1
I really like how easy and quick the online application process is.	1
I really like how my information is saved.	1
I really like the application form on-line. I think it is better than going to the campus.	1
I really like the being able to apply online rather than having to get to campus.	1
I really liked that the process was quick and easy to use.	1
I should be able to select that my bachelor's degree is in progress from the other university I am attending.	1

I still am unable to register for classes. This is ridiculous. Totally useless.	1
i still dont know whats going on.	1
I suggest that you include the Emeritus program as a choice of "major" or education goal in this app. I already have a Masters degree and don't want to have to state another goal. Thanks.	1
I think it was very easy.	1
I think more major options would be nice. i am majoring in liberal studies to become a elementary teacher (transfer) and i did not see that option there.	1

I think some of the questions were redundant. 1

I think that the application was quite lengthy. To me it seemed as if it was like the fafs. Actually some of my information was already stored on the application which is weird because I've never applied to this school before. I currently attend a diffe 1

I think that the process is very easy and that some of the questions seem ridiculous but they are necessary. 1

I think that the survey was very easy and user friendly. My only suggestion is to maybe consider highlighting the questions that require / demand answers before continuing. I would like to consider it for lack of better wording 'idiot proof'. 1

I think that this information was transferred from a previous application 4 years ago. I liked that it was already entered in the system. 1

I think that this was very easy to navigate and complete. good job! 1

I think there should be an "unsure" option for filling in the dates for previous college attendance. 1

i think this is a faster and better way for applying 1  
I think this online application was very user friendly professional and is quick to use for anyone applying for a community college. 1

I think to take a short piano class i should not be required to complete such a detailed application requesting information i have not had a record of for 30 years. I had to make up all of the dates and then certify that they are correct! 1

I think you should make a separate one for returning students so its easier or extend re submission of the application to more like 2 years of being absent from cuseta 1

I thought it was a very easy application process 1  
i thought it was confusing to know how to sign up. i wouldn't have been able to do it if i didn't call a counselor who worked here. it could be much simpler or obvious 1

I thought it was easy but at the begaing of the survey they didnt list fall for starting school.	1
I thought it was going to be complicated but it was not.	1
i thought it was going to take forever and was really fast	1
I thought it was quick concise and WAAAAY easier than Hancock's. =]	1
I thought it was simple and easy.	1
I thought that the application process was very straight forward and easy.	1
I thought that the application was very simple and understandable. This was the best application I have ever filled out!	1
I thought that this was a very quick and easy online application. I was thrilled when I found out that I didn't have to go through all of those tedious steps that other online applications comprise of. This was a very fun and educational site.	1
I thought the online applying system was very user friendly. Thankyou.	1
I thought the process was very easy and hassle-free. I especially found it to my interest that I could save my application and finish it at a later date.	1
i thought the site was easy to use and the application was clear and fast	1
I thought this online application was very easy to access and the information given was extremely easy to comprehend.	1

I used to using it now. When I started I was confusing the username/password for this program with the username/password for the school for which I was applying. I didn't know that the school and the cccapply.org were very separate entities. 1

I want to apply for summer classes however it only had Spring 2010(past) and Fall 2010 (after Summer 2010) I hope I will be able to register for Summer classes..? 1

I WANT TO LEARN! 1

i want to play soccer already 1

I wanted only to take one class and was forced to declare a desired major. I've already obtained my bachelor's degree and have no intention of seeking another. 1

I wanted to express myself regarding the question that asked about being employed or being the spouse of someone employed at CCC. My spouse is a former employee of Cuesta College and is a Full time employee of Los Angeles County College of Nursing. I wa 1

I was a PC tutor and am certified in English. This was a pleasant experience. Thank You - I look forward to hearing from you. 1

I was a student in summer 2012 it would have been nice not to have to reapply 1

i was dissapointed that we were not given an option of undesided when picking our majors. 1

I was forced to apply. I have no intention of attending Cuesta. 1

I was forced to resubmit this due to the failure on "mycuesta". I don't understand why my records did not make it from PAWS to mycuesta. All and all a real pain in the arse. 1

I was frustrated when I would hit the button for "next" and it wouldn't process properly. 1

I was having some difficulties with the server...it kicked me out twice and I had to re-log in. I guess it was "too busy" but it was 11 o'clock on a friday night when I started...who else is on?!?! 1

i was just slow to catch on and it was slightly long and redundant but it makes it worth it because it got me applied. 1

I was not able to find course descriptions on this web site. Thank you. 1

I was not able to raise up one of my past colleges I was not ably to enter all the colleges I attended because of the college finder. 1

I was not emailed a notice that my application of May 2011 was not fully completed or accepted. Also the website had some technical problems and I had to call them directly. 1

I was searching for an "undeclared" in the major list and was mildly surprised it was not there. i was so nervous but applying online was easy. i would and will recommend cuesta college to my friends. 1

I was submitting this application so that I could take a non-credit enrichment course and it would have been nice to have an easier process for applying for that purpose. I do not want a degree since I already have one and I am retired. 1

I was surprised that I was already in the system! hanks for having a state-wide system that allowed me to easily reference my previous login information especially since I didn't remember I had a login already! 1

I was told that this was the only way to apply. It would've been nice to have been able to have spoken with a person. Also I would have liked to been informed that I am accepted to Cuesta. I don't know if this is so or not. Thank you Jesse 1

I was unable to contact a counselor before submitting this application and as such I was somewhat confused by parts of this application. I was very excited and prepared for what was required on this application. 1

I was very satisfied with my application online. 1

I was very satisfied with not only the layout but the questions were very easy to comprehend as well. 1

I wasn't quite sure of the dates when I attended Cuesta. 1

I wasn't sure what to enter for degree received because I had not received any degree at any college but it would not allow me to leave it blank. I hope this will not work against me. 1

I went to High School in England and in the section which asks United States OR other 'other' did not work. 1

I while going from page to page the server would get lost. And the first time i tried to submit it would not let me and freeked out. 1

I will have my adult son use this online application also! Great "green" economical method for application! Thank You 1

I wish it had been clearer that the CSU Application and the CCCApply application have the same username and password. Since I didn't know that it was much more difficult to begin my application than it would have been if I'd known from the beginning that 1

I wish it had copied my email address specified in the CCC data to the College (Cuesta) application -- it did not... 1

I wish the Cuesta Home page had a bigger sign saying "enrollments open in October". I would have registered much earlier. Otherwise awesome process. 1

i wish you could chose what you're interested in minoring 1

I would appreciate a bigger check box and description for the option to not have to fill out Residency and P.O Box information for Parents/Gaurdians if they live within the same household so this option becomes more visible. Otherwise an error arises if 1

I would attempt simpler delineations; the wording is very simple. It's sometimes too bland to completely understand. 1

i would have done it sooner since its so easy 1

I would have wanted a quick reason for wanting parents info on their education-I felt that info was not relevant.	1
i would include a brief summary of the majors but other than that this online application was very easy and efficient.	1
I would just suggest making a better link for this application. It took me a long time to find it and I went to numerous websites.	1
I would like a separate site that doesn't include Spanish.	1
i would like more information about class descriptions when applying	1
I would like to enroll for the winter semester I don't want to wait til August before I can go to school. I have tried contacting you guys about enrolling for January and I've been told to wait til after Jan. 3rd.. please call me or email me thanks DTT	1
I would like to know if you want information about my other school that I went to so that I can get some credit from them. I want a Grant and not a school Loan maybe some kind of Scholarship.	1
I would like to see a separate and modified application for Emeritus students.	1
I would like to state the dates of education that I listed are approximate. It has been too long ago for me to remember accurately. Thank you.	1
I would like to thank the college and everyone who has helped people in need; and are continuing to help people get through all their obstacles as thoroughly as possible.	1
I would rather fill out an application using paper and pen. On-line registration should be mandatory! This system is not equitable!	1
I wouldn't recommend this application as it's already required for registration I see little reason to have this survey or to recommend it to anybody as there isn't a choice in the matter in the first place.	1
I'd give you a C+ or B-.	1

I'm an Emeritus student-this app is a bit complicatedfor a sr citizen who just wants to take a poetry class. 1

I'm confused about applying - when/where do I sign up for certain classes? I don't feel that this has been stated anywhere. 1

I'm glad it saved information from the last time I applied. 1

I'm in highschool right now I'm a sophomore and there was no option to click the "I am currently enrolled in high school and am enrolling in college for enrichment purposes" so I think that should be added. 1

I'm not a computer savvy person but this was simple. 1

i'm not going here. 1

I'm not sure about giving my ss#. 1

I'm not sure If I have made any errors that might jeopordize my Pell grant (which I need) or any federal assistance (which I need) or any potential student loan (which I might need). 1

I'm satisfied. BUT WHERE DO I GO FROM HERE? 1

I'm the parent of a minor filling out this application. It's not a friendly process; too many steps. On the application page it should tell the user to scroll to the bottom to begin the application process. It felt like I was going in circles for sever 1

I'm very satisfied with this application and I think it is very understanding. 1

I've already attended and received an AA transferred to Cal Poly and received a BS and am now enrolling for a course in order to get certifications through the State. Your question regarding enrollment status has no response that is valid to this type 1

I've already wasted too much time on this site to devote any more of it by explaining what a miserable experience this has been. Thank you anyway... 1

I've never applied to cuesta before. Only to Allan Hancock College but it was much easier to apply there. The application process wasnt as long. 1

I've previously applied to other California Community College's so all of my information was already loaded. I just had to double check everything was still accurate. Only took 15 minutes. 1

I am not the best on a computer and I found it to be very user friendly 1

If I haven't graduated high school yet would I put no I haven't gotten a diploma or yes I have. 1

If I missed something had to complete the whole page over again. 1

If you are young like myself there are a couple of questions in which I did not understand so if I were to give this application to another student I would advise to have an adult to help with a couple of these questions. Other than that I was satisfied 1

If you concurrently attended high school and Cuesta College it is confusing as to whether how it should be listed. 1

I am a little offended that the white delegation of race is limited to the description of white. I'm Scandinavian and am proud of my heritage and feel disregarded when I'm confined to such a generalization of my race based on the general color of my skin. 1

I'm glad I did it online. It was easier and I hope I'm able to get accepted and attend this school in Fall 2013! 1

I'm just kind of frustrated because whenever I try to apply to a class it doesn't work. 1

I'm more than glad to thank Cuesta College for not having any complications with this application improvement has been made 1

In the drop down menu only 4 options for status & none fit. I just finished high school so I checked "first time enrolling after high school" but I attended Cuesta as a high school student so my college history automatically filled in. Unfortunately the app 1

in regards to dates attending other colleges; if its been 13 yrs we may not remember- it'd be helpful if there were a function to link to the said college attended and search for dates attended? just an idea. 1

In the area where the ID# is specified you should make it clear if they choose not to use their SS# the student will need to complete the application in the office 1

In the Colleges Previously Attended section it did not list the Univ. of Washington and gave me no options to type it in. I finally in frustration went to the Foreign Universities option and typed it in being forced to use some other country than the Information saved got lost after log out Instructions are very easy to follow. 1

Instructions for non-listed high schools should be included on the high school entry page Interface was very easy and smooth. IS MORE EASY AND PRACTICAL It asked and answered all of my questions. 1

It brings ease and simplicity to the applying process 1

It could have been made a lot easier to understand to complete the application a lot faster. It's not exactly terrible but it's not perfect either. 1

It did not allow to add your own college without using a search which did not have all colleges in it. it did not have an option for those who have enrolled in a 4yr college but have not yet started attending it yet. it did seem to go on forever but the information was nessisary. 1

It didn't break which is good. Personally I hate all online college services because they seem to be overly secure and log you out every so often without asking you. This usually erases everything you've been doing. Cal Poly's registration service is It didn't like me too much. 1  
1

It does not have certain options needed to explain current situations. like if you are currently attending a college it does not have an option that says currently attending. 1

It does not offer adequate categories and forces the user to check boxes that are not accurate. For example: 1)I want to take a course for personal growth yet it forced me to select a major (academic goal). This will diminish the value of your stats whic 1

It guided me well through the application.Very self explanatory.Would highly recomend if time is of the essence 1

It is a rather long process to find where to apply. It would be much more efficient to make it more distinguished. 1

It is an online application however I had to make a phone call because the username/password retrieve function asked for my previous phone # and other stuff from years ago. Maybe some other account verification steps are in order? 1

It is easy to use and takes 10 minutes to complete. It is easy... 1

It is extremely useful that the information from previous applications is saved for new ones. 1

It is fast and easy 1

it is not a flexible system. it requires alignment with previous information given and makes it frustrating when you have a change of address and it requires an old one. 1

It is now unclear what login I should use to enter my.cuesta.edu since I am both an employee and a student... 1

It is really convenient once all the info is already stored for the next application. 1

It is simple and easily accessible. 1

It is tedious to re apply each semester to be honest. 1

it is thorough but takes longer than it could potentially take to complete. 1

It is time consuming to have to repeat information over and over again. It would be helpful if you could copy it over from other pages. 1

it is too confusing	1
It is very complete and clear	1

It seems a little extensive considering that I just want to take a free yoga class through the community services department. 1

It seems a little finicky and convoluted at points. Could use some ironing out. 1

It seems like a lot of unnecessary information to take classes at a community college. 1

it seems like a round about process. it would be nice if as you had in the biggining with a big button that says APPPLY! that contiuned on through out the process. thank you for your time 1

It seems to be a lot faster and less painless than the first time I applied straight out of highschool!! :D 1

it should be more obvious. I had troubles with the beginging and had to call someone for direct instructions. No wonder no one wants to go to college 1

it took a really long time 1

it took awhile due to forgotton username-but it took less time then usual 1

it took for ever 1

It took me a while to see that the application was online because the link is too far down on the first page. If this was made more clear it would be helpful. Thnaks 1

it took me awhile to finally get to this site. I went all over the place before I could find where I could apply. 1

It took me several days to get my log in password reset after contacting the 1-800 number for help. 1

It took too long - too many steps. Syntax error occured at step 8. Forced to get technical assistance from vendor. (wait on hold...)stancee. There should be an easier registration process for part-time 'enrichment' students. 1

It took way less time than I previously expected and that was a plesant surprise. 1

It was extremely difficult to navigate the page about college experience. It wouldn't let me say that I'm going to graduate in June 2011 from Cal Poly and kept shutting me out of the page. Then I put in info about a community college and it let me. Weird	1
It was extremely easy and straight-forward and took me only a few minutes to complete. I wish I could apply for the summer session right now though.	1

It was very simple and easy to use.	1

It was very straight forward and easy to use!	1

It was very straight forward and there was  
absolutley no confusion on what you were asking. 1

It was very stress-free and easily accessible. Be  
content that you are doing a wonderful job!!! 1

It was very user friendly the questions were very  
clear and I am very grateful that there was no  
application fee for applying online. It hardly took  
any time to complete. 1

It was very very nice! 1

It was was easy and straight forward 1

It wasn't enlightening or a riveting experience. I  
guess it was alright easy to use and direct. 1

It wasn't to bad West Hills Community College  
Lemoore should be updated into the system  
though. 1

It wasn't too complicated. Stress free. Thank you! 1

it wasnt that diff. 1

It worked fine 1

It worked well for me! 1

It works well. 1

it would be better if you guys gave an option to  
check if we wanted to take the classes/class online  
or off 1

It would be good/helpful to be able to print the  
application information for review before  
submitting. 1

It would be great if the application considered  
personal interests hobbies and other extra-  
curricular activities. Other than that it was great. 1

It would be helpful if you had a meter like most  
sites saying "Almost Done" or "Step one of 13" 1

It would be helpful skip questions to simplify for  
enrichment students. 1

It would be helpful to be able to see the  
information summary page before actually  
submitting the application. 1

It would be more convenient if previous  
applications could be edited for changes instead of  
having to redo the entire application. 1

It would be nice if more of the information would carry over from previous submissions. 1

It would be nice if the system would save & auto-populate the most recent application information on file if the applicant has previously submitted the information on a prior application. 1

It would be nice if you could simply contact Merced College electronically to verify that I am a student (ID #0194276) rather than my having to request a paper transcript and mail it to you. 1

It would be nice is high school enrichment students didn't have to pick a major ... or at least be told that this was for informational purposes only and that students are not locked into their choice of major. 1

It would be nice to be able to add a newly attended college to the list attended and have the previous colleges move down one spot instead of having to redo all of them. 1

it would be nice to be able to e-mail the information to myself instead of haveing to print it since i dont have a printer 1

It would be nice to have a preview of your application before you accept so that you are able to view once more quickly 1

It would be nice to increased options on academic goal and last type of degree obtained. Options like Have Bachelors and going back for Associates and also still attending at "present" schools/colleges. 1

It would be very helpful to be able to submit changes to the application especially if the student discovers a mistake on his or her application. 1

it ws really eay and you could do it on your own 1

It's a bit out dated and inconvenient along with rest of the Cuesta website. 1

It's a great way to save trees! 1

it's a very long process 1

It's a very thorough application. 1

It's difficult for low income students without email accounts to access information. 1

It's difficult to be so confident with answers about personal stuff. I don't want to be wrong	1
it's easy and quick.	1
it's easy and fast	1
It's easy not long and straight forward.	1
It's fast and easy	1
It's just like CSU Mentor which is super tedious when applying to several schools when you have to repeat the same information all over again. Why isn't this info shared between apps?	1
it's kind of a dull experience	1
It's nice that it saved all of my information - it made this application much easier than if I had needed to re-enter it all.	1
It's nice that it's synced with the CSU applications it saves a lot of time entering information.	1
It's not the application I have a problem with; it's the College's (Cuesta's) website(s). Information is everywhere and nowhere. Some of the pages seem to have no real reason to exist.	1
it's quick and easy. it only took me about 5-10 mins	1
It's quick efficient and VERY easy to find high schools and previous colleges. Allowing student who have attended more than four colleges to submit information about all schools would help them feel more certain that their application will be accepted.	1
It's quite nice that I can access the information I entered last time - it saves me a lot of effort.	1
It's really simple and fast.	1
It's simple quick and easy to go through.	1
It's the best...	1

Its no where near as flawed (or RUDE) as Cuesta's on site Admin	1
its perfect	1

Job well done!	1
Just for you knowing example I don't serious.	1
just great.	1

Just had a question about the consent of information it was rather vague. Is it given to the armed services? My son is in High School. Thanks. 1

Just maybe a little clearer about some of the questions other than that it works like a charm. 1  
Just should direct students in Bold Print at the top that the beginning of the application is at the bottom of the CCCapply.org page. Otherwise its pretty easy to get lost. 1

Just very slow saving and proceeding to next page and the final submit took almost 10 minutes. 1

Just wanting to take one class for professional growth and having difficulty answering questions and logging onto your site. 1  
Keep the social security number confidential on the confirmation print out page/copy. 1  
keep up the good work people. 1  
Keep up the good work!!! 1  
keeping everything flush left would make it visually more consistent. 1

kind of confusing. but ive had worse applications. 1  
kinda plain and boring more colors 1  
la aplicacion en linea me agrado ya que fue explicando paso a paso lo que se necesita realizar para mandar la aplicacion. 1  
Last residency questions were a little difficult to understand... Outside of your own state or outside of california? 1

Laurie was a great help in getting me re-registered paid in full and myCuesta access. Thanks a bunch! 1

Layout of information seemed too congested and I felt that many questioned were asked and then answered more than once. Other than that I was just going through the motions to complete the application. 1  
Legit 1  
lengthy app. 1  
linking information from previous applications is very useful. 1  
Little too much info 1

lolololol	1

Lupe in the transfer center was very helpful	1
Make compatible with Safari.	1
make is more simple	1
Make it a bit easier to find the application from the mycuesta portal.	1
make it easier	2
Make it more clear where to start the application and more choices for terms to start enrollment.	1
MAKE IT SO POTENTIAL STUDENTS CAN ENTER THE HIGH SCHOOL THEY WENT TO OUT OF STATE. IF IT IS THERE I COULDN'T FIND IT.	1
Make the fonts bigger	1
Makes things so much easier.	1
Maybe DARKEN or BOLD your "go to next page" links. And at the very beginning the "Start Application" button was a little tough to find. Just being honest	1
Maybe make the very first "apply here" button more obvious. It's all the way at the bottom of the page and after the registration instructions which makes it chronologically illogical.	1
missing information about "enrichment students"!!!	1
More explanation for all choices would be very helpful.	1
More information on the choices it gives you for the majors. By clicking on a major you then get more information on it.	1
more information on what major CSU students seeking transfer classes would choose.	1

more options for military status. some people get sent home for medical reasons during basic training and are not technically considered veterans. Though they have tried to serve their country and sent home honorably. 1

Most of the application did not pertain to why I want to even take a class at Cuesta. 1

Most of the security Qs didn't apply to me and made it hard for me to pick one. I only know of one parents EDU status. 1

Much easier than applying to USC schools. It was much shorter and much easier 1

MUCH easier than filling out stacks of forms! Thanks!! 1

Much easier than the previous application process. thank you 1

Much too involved for a senior taking classes for the fun. 1

Much quicker simpler and easier than Hancock's. 1

my college was not even listed and there was NO WHERE to type in notes. 1

My computer was accidentally shut off while I was in the middle of filling out my Cuesta application. I was oh-so ticked until I realized my information was saved. Yay! 1

my experience applying to this collage online help me realize there is a lot of things I need to know as life goes on. because life can be hard at times. if you just learn to do things that seem hard but do them by yourself you'll be just fine! thanks again CUE 1

My father was in the military while I was in high school and we were stationed in Spain. So I had to put that I received a foreign High School diploma/certificate. However I went to an English speaking school for Military children... no option for that. 1

My first time using this site and doing my application was quick enough and easy to read and understand. Thank you Joseph RaMON 1

My high school wasn't on the list other than that it was fine 1

My highschool provided a walkthrough guide on how to apply online. Without it I would have been completely lost. Then again I have never really been what one could call "computer-savvy". . . 1

My information was maintained after being absent for two semesters--this made the process easy. 1

my name is raul uc and im looking foward to wrestle for cuesta i was a 2 time cif champion placed 9 and 4 in masters and state qualifier twice and look foward to improving the program. 1

My previous activity with California Universities had been saved making the whole process a breeze! This is a great system for associating ease with continuing education - an association unfortunately rarely made. 1

my sister uses thesame e-mail (my moms) and I had to use another one becauce hers was already used. One email should be able to be used for students in the same household 1

My son used our shared home email address for his application two years ago. I was disappointed that I could not use the same email address when applying for myself. It is inconvenient for me to use the Community College website to access my email and I w 1

Navigating this site was extremely simple. Just follow the instructions. 1

Need more choices for ethnicity. Iranian was not available nor was Russian Jewish or Polish or Estonian Danish Swedish etc. 1

Need to add an additonal line for students who are in high school and will graduate in june. need more clear choice. 1

Need to be more clear with questions or give more options such as degree in progress 1

Need to include quick-access course descriptions 1

Need to include section/selctions for Emeritus College. 1

needed a little bit of help. Tricky fields could be more user friendly. Definitely recommend for friends.	1
Needs clearer options for high school students taking college classes	1
nice and easy	1
Nice and easy to fill out	1
nice and simple	2
Nice and simple.	1
nice layout and error messages...a little confused where the info came from since to my knowledge I have never applied for a community college	1
nice that i was able to use my old application and my info from Cal Poly was up to date like a living document	1
nice!	2
Nice easy and painless.	1
no comment	1
no complication once so ever.	1
no complications during my application.	1
No fee and no essay made me feel uneasy about the college. seems too easy	1
No means of getting forgotten username and psswd so I had to create whole other account.	1
No option available for high school no longer in existence.	1
No problem....easy	1
no room to state that you only took a couple classes and didnt get a degree	1
no thank you	1
none	5
NONE AT THIS TIME	1
None everything was simple and easy to use.	1
None.	1
Normal application process it was straightforward and laid out well. Good flow.	1
not as hard as i thought it would be	1
not confusing very straight forward and easy	1
Not easy to find the application	1
not everyone can choose a program of study. i was forced to choose one by default to continue with the application.	1
Not geared towards students enrolled in other colleges namely Cal Poly.	1

Not having seen the results of the application process I feel that the online application was easy to understand clear in its request of corrections and quick.	1
Not obvious how to get to application at first and confusing for college enrichment students.	
Otherwise OK	1
Not quite sure when or how to submit prior college transcripts.	1
Not sure why I have to do this whole application after being out of Cuesta for 2 semesters. Seems like a waste of time.	1
Not sure why you need my past college attendance. Took a lot of time to input.	1
Nothing I would really change on it. :)	1
Of course I would recommend this process: It is the only way to get in to the school.	1
ok	1
On a few notes like residency status and other questions I was asked it might have been nice to have clarifying information available. Some things were a little unclear.	1
On the last few pages of my application I received an error message after saving and clicking to go to the next page. I finally logged off and then logged on again. Also your instructions require declaring an educational goal at the point of applicatio	1
On the whole it was a good experience. I called the 800 number because I had a lapse in my tenure and I forgot my ID and password but operator was helpful.	1
Once I found out where to apply it was easy.	
Finding it was tough.	1
One problem with the application is the college education section. There is no space that allows for an answer the says one is still enrolled at another college.	1
Online application is the best way to complete your applications instead of writing it on paper.	1
online is easy	1
Only problem is the passwords and log in's. Too many to remember.....But the system worked well otherwise.	1

only thing i could not find was the one options for youth i attended in encino california 1  
Organized nicely! I love how it knew what and where any problems were when problems occurred. 1  
Out-a-sight my MAN! 1  
Outstanding format.Very easy to use. You guys ROCK 1  
Outstanding! I am very excited about attending Cuesta!! Thank you!! 1

Overall the online process was pretty painless; my only issue stems from the nature of having to re-apply after a two-term absence; but this is not so much a reflection on the process itself. 1

page 2 would not allow me to advance to the next page. It indicated that current and permanent address were not the same when I checked the box that they were and the system automatically filled in the permanent info 1

personal information page froze twice and was unable to log out twice. It had all my information and that's not professional in the wireless world. Piece 'o cake 1  
1

please have your "application" log-in and your "registration" log-in info be the same. thanks 1  
Please improve the user friendliness of the site. It was very confusing. 1

PLEASE make it easier to find the "start application process". It took me three tries over a couple of days to figure it out. Way too obscure!!! 1  
Please put undecided major as an option. 1  
Pointless because i have already applied but it cancelled my account 1  
poop. 1  
poorly organized and options are confusing 1

Problem remembering exact dates when it comes to returning to school after many years. Should have an easier process for students who want to take classes just for the education without acquiring a degree.	1
put together very well	1
Qquick. Helped me find the information I needed.	
Didn't ask for my credit card number	1
Questions are very easy to understand and everything is organized well.	1

Really easy and straight forward. Loved the find your schools part made it really easy. Thanks	1
really easy to use..i would reformat the part on the consent to divulge information. List the organizations to whom the information could be going	1
really quick and simple	1
Redundancy of questions is frustrating such as "year of graduation" and "years of attendance" Regarding Residency page 2; There should be a question after asking if you haven't continuously lived in Ca how long have you had a Ca driver's license? Have you been paying Ca income tax and if so for how long?	1
Relatively easy	1
Remembering repeated information from previous applications really expedited the application process.	1
Renew application process online as soon as possible.	1
Retreiving my username and password was difficult since my husband and I share an email and have both used this process. My email was ignored and it wasn't until I called that I received help. The wait time for the phone call was lengthy but the pers	1
Ridiculous nonsense about other colleges attendend. Who can remember all those dates?	
Your program can't handle it!	1
Right on man.	1
rock on	1
Sandra at the North County campus was very helpful in making this process easy.	1
Saved a lots of time and was simple.	1
School is #1	1
See you next year!	1
Seemed a bit redundant at times.	1
Seems longer than I remember but I love the convenience of it being online.	1
Seriously Need To Get Into School!!!!	1
Short and too the point good most online forms seem unnecessarily long.	1

Short sweet and to the point. One recommendation would be in the academic background section to have an option for still attending a school.	1
should be done in person	1
Should have a seperate application processs for people taking classes for enrichment purposes only!	1
Should have an option for students currently enrolled in a four year university	1
Show what page number out of total pages you are on and a guide to skip to other pages without having to go through multiple ones using the "Front " and "Back " buttons.	1
Signing into the system gave me a couple of problems but they were resolved after a couple of attempts.	1

simple clear and quick. Suggestion: supply the applicant with optional short summaries of each major.	1
Simple no hassle and compatible with my browser (google chrome)	1
Simple quick and clear. Easy to understand. Great job.	1
Simple safe and super quick.	1
since i had applied foe another semester it had all my info so it made it easy i just over looked everything to make sure it was accurate.	1
Since your Future students page has soooo many different links on it. It took me a minute to find the APPLICATION button. I think you need to ad one to the top of the page as well as have the button at the bottom of the page.	1
Site is very user friendly	1
Smooth	1
So easy to follow!	1
So easy to use very simple and well layed out.	1
So easy!	1
So far so good but I really don't know if the process is satisfactory until I'm registered.	1
so fun!	1
So much easier and quicker than other applications.	1
So much easier to do this online. Takes a few minutes then you're done and if you need to step away and do something else real quick you can!	1
SO user friendly and very simple-only took a very few minutes.	1
Social security field format is difficult to read.	1
some instructions need to be a little more specific	1
Some of the application information was not very well thought out and left me questioning whether or not I was completing it correctly.	1
Some of the Colleges are not found in the list.	1

Some of the options seem very unnecessary for students living outside of California; or in East-Coast states; there is too much emphasis on giving a Spanish-speaking option. Although this is helpful it is almost redundant the classes will be (for the mo	1
Some of the parts were hard to read because the buttons were placed over the words.	1
Some of the questions couldbr phrased in a manner that leaves no doubt as to what our response should be	1
Some of the questions do not apply to my situation but I made the most of it.	1
some of the questions related to residency were somewhat confusing. for instance i am switching guardians when i move to california so it was difficult to answer some of those residency questions.	1
Some of the questions seem redundant or not ordered well. For example one section inquires about the applicants high school experience but in essence repeats the same questions several times. Also there's no option for college degrees in progress.	1
Some of the questions seemed some what redundant but other wise this application process was satisfactory.	1
Some of the questions were worded a little bit strange.	1
Some of the questions were worded strangely and made it difficult to understand. Other than that it was easy to go though and do.	1
Some personal information (like schooling-three schools-from several years ago) I don't remember off the top of my head but I'd like to be able to save what I do have and come back.	1
some questions are redundant	1
Some questions are worded funny	1
some questions for my liveing here were confuseing	1
Some questions need minor clarification	1
some questions seem redundant	1
some questions seemed to repeat	1

some questions were confusing. the ones about  
highschool graduation i havent graduated yet so i  
was confused on what to put down. 1  
some spots were tough to figure out but i got  
through it ok 1  
something was wrong while i was filling everything  
out and i couldnt figure it out. 1  
Sometimes I don't know wether to answer a  
question or leave it blank do to personal confusion  
or guidance. 1

Sometimes the dates of attended colleges can get  
confusing for example I had to write that I  
attended UC Santa Barbara from 2007 to 2008  
even though I'll be graduating in 2011. 1  
Somewhat awkward form 1  
somewhat broken education page didnt let me  
enter information correctly about previous  
colleges attended. 1  
Somewhat confusing: 1. I took several classes in  
the past for no credit and all of a sudden have to  
apply for admission.? 2. I started out filling the  
form & didn't see a way to go to the next page.  
Your software warned me that there were more  
pages. 1

somewhat dificult to know what major to choose. 1  
Spiffy! 1  
Staff very personable and helpfull 1  
staff was ready to help at any time thanks. 1

Start was a little confusing then it was a breeze 1  
Stop asking about surveys 1  
Straight forward and difficult to mess up. 1  
Straight forward and easy to use! :) 1  
Straight-forward. Finished it in under an hour.  
Thank you. 1

Straight-forward. Unambiguous. Took 10 minutes. 1

Straightforward and very easy to understand. 1  
streamlined and easy! 1  
Students are able to go through the application  
easily. 1

stupid questions...should have application for 4 year students that just want to take 1 class to transfer	1
submit button and other buttons should be in brighter colors with instructions on what button does what...	1
such a pain.	1
Suggest to make it very clear on homepage of Cuesta College that application process is not available on campus. Also make clear that course booklets are no longer printed and classes should be searched online.	1
Suoer easy fast and great!	1
super easy	1

super easy. well done.	1
SUPER FAST AND EASY! VERY SATISFIED WITH MYSELF FOR GOING BACK TO SCHOOL!	1
super friendly enviornment!!	1
Super Fun!	1
System requires a date of completion for other colleges attended. My attendance was 1 class rather than a program it was not clear to me how to convey that information accuratly.	1
T'was extremely confusing and irritating and it was apparent that I was going to have to supply my social security number when it was not available to me at the time.	1
takes a long time	1
takes along time to complete when cuesta already has the info on file from past attendance	1
telling you when and where i went to school was a pain in the ass.	1
Thank God for this great kind of college!	1
Thank you	4
Thank you again for making this so easy!	
Sincerely Genevieve	1

Thank you for giving us all the opportunity to register through the internet. It made it much more easy for me.	1

thank you for making the form clear and for the auto save feature will completing.	1
Thank you for making this so accessible to everyone!	1
thank you for this opportunity	1

Thank you.	2
Thanks for making it easy to apply to multiple CC's of California with this easy to use process.	1
Thanks for making it free!	1
Thanks for making it sooooo easy!!!	1
Thanks for saving all my previous information. It took me a long time to input that the first time. I got through the reapplication in under 5 minutes.	
Good work.	1
Thanks for your help.	1
thanks!	1
Thanks!!!	1

thanks it was easy to follow and the steps made sense	1
That was easy	1
That was really quick and painless; the whole thing only took like 5 minutes.	1
That was way easier than I thought It was going to be. I am a new student to college and I hope the rest of my experiences will compare well with this one.	1
The 2 consent questions were consent questions were very confusing	1
The ability to add a school that is not found in a school search could be made easier and more readily explained.	1
The app process is fine. This survey is irrelevant as applicants have no choice.	1
The application asks too many personal irrelevant questions. Clean and simplify the form. Thanks.	1
The application does not state whether a person prefers to attend the North or South Campus and it would be helpful (and reassuring) to have that option on the application	1
The application for Cuesta was straight-forward and very simple to use. I would recommend it to anyone interested in applying.	1
The application intake was to the point and addressed major points of student interest and was laid out in an easy format to complete.	1
The application is fairly long and asked for certain information twice.	1
The application is perfect	1
The application is very long and parts of it are confusing. It seems unnecessary to have to fill out the same questions every semester.	1
the application it self was very good though it mght help if you take into consideraton about the high school students who want to attend cuesta classes adn make a separet applicaton for them.	1

The application process is too limited in that it forces an applicant to sign up for a term that is already in progress and course of study that is too broad if only certain classes are of interest.	1
The application process was clear and easy to understand...good work	1
The application process was easy and accommodating however it was difficult to find the link to the actual application.	1
The application process was extremely simple to follow. I appreciate having a step-by-step sheet to follow from the Counselors at Atascadero High School.	1
The application process was fairly simple	1
The application process was incredibly easy. I am 39 and not so up to date on computer skills so this was a cinch. Thank You So Much for making it easy.	1
The application process was not very hard but a couple of questions were a little confusing or ambiguous. Also I had a hard time remembering the dates of previous college I had attended so I had to guess.	1
The application process was quick and easy	1
The application process was quick and painless. I really liked doing it online like this!	1
The Application Process Was Simple And Easy To Understand.	1
The application process was very easy and fast. Now I'm curious how long it takes for the school to provide feedback and when I can enroll for classes. Thanks Sonya	1
The application process was very easy and helpful.	1
the application process was very easy to do and would reccomend others to use.	1
The application process was very quick simple and straight forward.	1
The application process was very simple and straightfoward.	1
The application remembered almost all if not all of the info i used last time I applied for college.	1

The application was easy to understand and fill out. I would recommend that even people with limited computer skills apply this way. 1

The application was extremely easy to navigate! 1

The application was fast and easy. they made it simple to understand what they needed. 1

The application was not very clear for continuing students with disabilities. I think there should be a site where the disabled can get a more one on one help. 1

The application was organized well and very easy to follow. 1

The application was quite painless because the information was presented in a nice easy to read fashion. 1

The application was simple and easy to understand. 1

The application was simple and to the point. Thank you for making things so easy! 1

The application was time consuming but I understand the need for it. 1

The application was very clear 1

The application was very direct easy to follow and thorough. Everything had the necessary information to answer quickly and move on. 1

The application was very easy and straight forward. relieving to be able to do it from the couch :) thank you! 1

The application was very easy to fill out and extremely informative. Thank you for making it easier on us students. 1

The application was very easy to use. Thank you. 1

The application was very easy i had no problems filling it in and before i knew it i was done with my application. 1

The application was very quick and to the point. Didn't take more than 10 minutes. 1

the blue colors kind of threw me off a little bit. I would have just made it all black with larger letter or bold lettering for titles and using italics. 1

The cccapply hope page is full of adds that look like links to apply. 1

The choices offered did not cover all situatuions.	1
The college finder is a little challenging because it uses abbreviations instead of the actual college title.	1
The computer application shut down twice with errors but it saved all my information.	1
the computer would not accept my answers nor would it let me choose another answer	1
The dates attended fields for other colleges attended should be more flexible. My prior attendance at college was 20 to 30 years ago. That makes it difficult to enter exact dates.	1
The dates for application to certain terms (Summer for example) were incorrect.	1
The education background page does not allow you to mark yourself as currently enrolled at a college or institution instead you must put down the current month as the date attended until.	1
The email caused some problems. My brother used this email account when he started college (parents). For college I want to use it also to keep my parents informed and their assistance. This process makes it hard to use the same email for another perso	1
The fall will be my second semester at Cuesta College. I couldn't put that anywhere.	1
The feature that saves your information and auto fills when you fill out a new application is amaizing.	1
Thank you so much	1
the financial aide office should be opened a lot more	1
The first page is a little confusing with choosing major and with what we plan to do. Most people just want to get their general ed done and then transfer but that isn't a choice.	1
The first time I tried to submit an application the page would not go past page 1 -- I kept getting an error message. So I waiting a day or two then tried again and had no problems.	1
the font is too small	1

The form could be improved. Colors layout and format make it very difficult to transition between questions and determine which questions are not applicable to an applicant. 1

The form should include instructions ON SCREEN on adding a high school not on the list. 1

The format and some of that options do not apply and are confusing. 1

The formatting for entering SS# could be cleaned up a bit. The example of "###-##-####" doesn't show up very well on the website. It would be best to just have people enter the SS# without dashes. 1

the gals in the office were very helpful with information for me to apply 1

The GUI is clunky and some parts are difficult with long drop down scroll bars. 1

The help line for the application of cccapply.org was helpful 1

the help was very good and kind 1

The High School thing was funky. 1

the instructions were easy to follow and informative on the necessary procedures to fill out the application. The process was very manageable and efficient. 1

the landline number was little to no help. Improve response and extention number updates. 1

The lead into the application was very long to the point that I wondered if I was looking at the wrong page. 1

The less paper we use the better so I'm all for online forms and services 1

The liked the online application it was very easy to use. 1

The Links on the cuesta homepage are not clear. I am still not clear of what to do after filling out the application. Am I approved? Can I register? The application itself is clear and easy to navigate however the process before and after are not organi 1

The list of colleges attended isn't complete. I attended Cummings School of Veterinary Medicine at Tufts University in Grafton MA but I could not select it from the list. 1

The login is unavailable in spite of the fact that I have applied repeatedly. There is no explanation and when I call the phone number provided I am put on hold for over an hour with no answer. 1

The nagigation on the Website is awkward and confusing. I recommend reviewing and revising it. 1  
The necessity to clarify "no" on every box that had no relevance to me was tedious and time-inefficient. However online applications are always easier than requiring an in-person or paper application. 1  
the office staff was very polite and helpful 1

The on line registration was quick and easy. I was able to do it during a 10 minute break at work. 1

The online application was quick and easy to fill out. 1  
The online application is easy and efficient. 1

The online application is fast and very good tool in applying to a college. I would like to use this online application when it is necessary. 1

The online application is one of the easiest that I've ever done 1

The online application is very easy to fill. The questions are not complicated since the wording is easy to follow. Thanks. 1

The online application is very easy to understand and fill out. I highly recommend this for anyone who hates dealing with paperwork. 1

The online application is very easy to use and understand. 1

The online application process is fairly straight forward and user friendly. There is some ambiguity in the section re: attendance at previous college or university as there is no designation for "attended as an enrichment student"? 1

The online application process is very poorly constructed for students who are CURRENTLY attending a 4 year college (such as CAL POLY) trying to sign up for summer courses 1

The online application really saves a lot of time. It served its purpose well. Thanks a lot. 1

The online application was easy and took very little time	1
The online application was easy to navigate and comprehend.	1
The online application was quick easy and convenient.	1
The online application was very easy to follow	1
The online application was very easy to understand and use.	1
The online application was very fast and easy.	1
the online consent form contradicts itself saying first that information will not be released without consent and later stating that all info in the form is property of cuesta and you'll do with it what you damn well please.	1
The online makes applying very quick and easy. It is a great tool for all students.	1
the online registration was fast and easy	1
The online service is very straight forward and easy to use:)	1
The only downfall(just like anything else) is the fact that a live person can't answer your questions. But other than that it was a very easy and painless process	1
The only issue I had was that I am currently attending Palomar College and will continue to do so. It would be convenient if the form allowed for prospective students to make a selection that reflects such a status.	1
The only problem I had was attempting to put in my current address. I know I entered it in correctly but it kept sending me an error message.	1
The only problem I had was that I could not put in one of the college's I went to. EAM	1
The only problem I had was that I had to reapply and I couldn't remember my user name and password and I ended up having to call XAP for help. Once I got them on the phone it was really easy because I was given my information after verifying who I was bu	1

the only thing I found difficult was getting to the application. The actual link is at the bottom of the application page. It might be better to put the link on the main page of every college and at the top of the applications form. If you want people t 1

the only thing that I would recommend is making the student i.d. number easier to locate i had a very hard time trying to relocate it. 1

the only two degrees i could choose were bachler and AS i have an AA. when choosing ethnic background there are a lot of options but no caucasian just white which is not an ethnicity. The options in the major and goals section did not apply well to me. I needed to take courses as prerequisites for grad school. Therefore I do not have a major and my plan is to complete my prerequisite classes. 1  
The page would sometimes freeze up and not save...very frustrating. 1

the pages wouldn't load the first couple days i tried... but the last time i tried it worked fine. 1  
The part where students are picking their degree the choices are not in ABC order. It made it a lot harder to find the right one. 1  
the people here were lovely and happy to answer any questions that i had. 1  
The process was fairly easy for someone who is not very computer savy. 1  
The process was simple and easy to use. I would highly recommend this to anyone interested in going to college. 1

The process was simple and easy to use. The only issue I had was that the social security number was blocked out so I was unable to check to make sure that I typed in my number correctly. 1

The process was simple to follow and easy to use. 1  
The process was very clear and easy to navigate. 1  
Thanks! 1  
The process was very easy to do and now I am ready to apply for financial aid. 1

The process was very easy to understand and clearly stated. Straight forward and to the point. I also liked that you could save and go forward and back. Great application! 1

The process was very user friendly and quick. 1

The process would have been smoother if there were more explanation on how to start it. Also at the end I had a hard time submitting the application. It kept saying that there was an error. I tried to re-check all the pages to make sure I didn't skip 1

The questioning in the "out of state" section can be confusing. Suggest re-wording. :) 1

The questions could be more clear in the residency section slightly confusing at times. 1

The questions were straight forward but it would be nice to have a little more graphic design... images and photos. 1

The registration was simple and fast on-line. 1

The residency questions are confusing. 1

the section asking whether one is latino immediately followed by a section of ethnicity is one redundant and furthermore offensive. 1

The site is very user friendly. 1

The social security release form is confusing with the reply of i do contest or i do not contest. 1

The Staff at the North County Registration office were extremely helpful. Thank you. 1

The staff is awesome & very helpful & made it very easy to apply & were helpful with any questions I had. 1

the staff on student suport are very friendly and help you straighten out problems with your account 1

The survey was clear and straightforward. 1

The survey was easy to understand and navigate through. 1

the survey was very efficient. It was also very organized and was very easy to read as well understand. 1

The system is very temperamental and glitch laden. 1

The use of my social security number was unclear and therefore disturbing. 1

The user name/password requirement came up much too frequently for such an otherwise easy task. 1

The web application is easy to understand. 1

The web page closed on me numerous times during the process. That could have been my computer. 1

the website occasionally gave me a couple problems but once I got passed them the application was simple 1

The website is dull to look at and does not clearly outline prompts when you are completed. A lot of people (like myself) are visually driven. This site is not visually friendly and it was hard to find the link to apply. It's cluttered a bit. 1

The Website was very fluid and easy to use! 1

The website was very well done. 1

The whole Cuesta website is difficult to navigate and find anything on it. The website needs a new format. Items are very difficult to find even when using the search bar. It's been this way for three years that I know of. Using the Cuesta website is a v 1

the whole process was clear and easy to use. One way to improve is to add missing colleges off your search list once they have been verified. 1

The whole process was very straight forward and hassle free. 1

The wide spread option of application also working at other California community colleges is convenient. 1

the wording was very clear and precise. it was refreshing to have a simple application to fill 1

there are a couple glitches. Like if I say that I once went to Cuesta for a month a couple years ago then later on in the application it wants me to list all the colleges and universities I've attended but it will not let me pick cuesta nor will it let

There are some issues with my situation that aren't covered by this application. I am currently active duty Army in Germany and get out of the Army in June. I am also switching over to Army Reserves. I know it would probably be easier to talk to some

There is some personal (statistical) information that should be optional to state. This online form requires an entry.  
1

There is somethings that are worded awkwardly.

There needs to be an Education catagory that recognizes that some high school enrichment students are also returning students and that some students are 'continuing' even though they have just graduated in 06/2008 from high school. There is no option for

There should be a section to list degree in process under the information about previous college degrees	1
There should be a separate application for high school freshman.	1
There should be an undeclared option (or make it more easily seen) in the major area for students just trying to take units over the summer who attend cal poly.	1
There should be more information that you can toggle to about the majors and degree options. I may have mistakenly chosen the wrong major on my application.	1
there should be more personal questions... like interests	1
There shouldnt be a separate application system for each school. if so it should be done on that schools website. going through a secondary system is very frustrating and a waste of time.	1
There was a lot of repetition related to high school and college education dates and graduation dates. It seems like this could be more streamlined.	1
There was one glitch with the address. I typed identical addresses for the mailing address and permanent address but the system stopped the application process and said the two were not identical. I reviewed them to confirm that they were. I checked th	1
There was some repetitions of questions	1
There were a lot of questions that did not pertain to me. Get a better system to weed out questions. For example after is asks my date of birth do not ask me a question that does not pertain to me age (the attended this college before 1984 question).	1
There's one thing however. Not many people bother remembering the exact day on which they graduated. The 6th of June is a rough estimate I'm not sure when it was other than early in that month. I'd advise making it month and year only.	1
this app was very easy and clear to understand- great work!	1

This application does not have choices to pick from that apply to me. Pain in the @ss	1
This application is just like the one for Los Medanos College	1
This application is legit	1
This application is really geared toward students directly out of high school. I think a seperate application for adult students may be more appropriate.	1
This application is very easy to understand any one could take it which makes it nice.	1
This application is very easy to use and very helpful.	1
This Application just asks the important questions. It is easy and gets things done a lot faster than other applications	1
this application online was easier than i thought.	1
This application process is very annoying. PAWS was a better system and would have been easier to use as a returning student rather than having to resubmit my information.	1
This application process was easy and helpful especially for future incoming freshman students.	1

This is the most ridiculous website I have used in a long time. I am helping my husband enroll in a computer class because he is 67 years old and does not have computer skills. How do you think he would do filling this out without help? Not very good	1
This is way too long and has way too many irrelevant questions.	1
THIS METHOD OF ENROLLMENT MAKE SO EASY TO APPLY FOR CUESTA COLLEGE	1

This seems like overkill for an Emeritus Program poetry class.	1
This should be tied in with past records and the "My Cuesta"and general Cuesta website. I am a former student and have a my cuesta password that should work for this.	1
This sight was easy to follow and the application process was painless!	1

Too long. Why can't I just give you my name and SSN? That's how everybody else in the world gets my info anyways.	1
Too many irrelevant questions.	1
too many personal questions asked!	1
too many pointless questions :)	1
Too many questions about history residency to just take a course for interest.	1
Too many questions.	1
too much back and forth make a simple on log in process.	1
too much duplication and confusion between MyCuesta log on and CCCAPPLY Keep It Simple Stupid. KISS.	1
too much reading ! get to the point	1
Too tell the truth it is kind of intimidating for newer people with the 'No CHANGES' and etc. so just a little bit odd..	1
Too time-consuming; I graduated in 1992 and do not like being forced to fill out all this info most of which is already on file. This process needs to be streamlined to help us returning grads get back into class in a more abbreviated manner.	1
Too wordy	1
took a long time to complete	1

Took me a while to figure out how to apply online  
 the links kept taking me in circles from the "Cuesta  
 Community College" back to the "How to apply"  
 page when i finally saw the button at the bottom  
 of the page of  
[\[http://www.cccapply.org/applications/CCC](http://www.cccapply.org/applications/CCC) 1  
 Took me forever to find it BUT HERE I AM. I would

Tried to recover Username/Password said I didn't  
 have an account. Filled out info for creating an  
 account and it said one already existed. Went back

Under education there should be an option for "in  
 progress" for those who are currently attending a  
 four year and have not graudated yet. I was  
 confused about what to put for degree and  
 attendance to date since it is in progress. 1

Under enrollment information I did not know the  
 different abbreviations meant. For example CA  
 (Califronia certificate? etc) AA and AS. So I had to  
 take a guess. I looked under the FAQ section but  
 did not find what I was looking for. 1

Under entry level there is on screen 4 there is no  
 option for a 4 year college student wanting to  
 transfer classes. So i was not able to put a date  
 that was later than my registration for the summer  
 because I am graduating in 2016 from a 4 year  
 college 1

Under Ethnicity/Race there should be an unknow  
 box for those that were adopted or whos parents  
 were. 1

under have you been in california since 2011 needs  
 a comment area to specify. 1

Under section 4. Education the "Colleges Attended" section wouldn't allow me to select "Cal Poly/SLO" as the 2nd college where I completed a class so I only input the city of San Luis Obispo.	1

well done so easy a cave man could do it 1

well i am gonna give my ssn at the registration office because i dont have it with me at this moment 1

well put together. 1

well set-up 1

Well I guess I've registered. But for what? How do I apply for the class I want to take? Just a bit confusing. I guess I'll figure it out! 1

Well it was a bit difficult recalling information like exact dates of graduation or enrollment but hopefully that can be worked out once records are requested. That was my only problem otherwise it was easy to apply. :) 1

went quick and easy! 1

What do you mean "would you recommend" this online application? There's no choice but to use it! 1

What I liked about this application is that I was able to save and come back to it. Making it easier than applying for Cuesta in one sitting which sometimes results to be difficult. 1

When a drop-down field does not apply the user should receive the option to select "Does not apply" instead of "Select one" to eliminate confusion. All radio button labels should be associated with the respective radio button so the user can more easily 1

when asked if you are a u.s. citizen wait for the answer then ask for expiration dates for green cards. 1

when asking when one has moved to California why limit it to 2 years before the start of the semester being applied? 1

When filling in the section regarding other universities attended there is not an area to click "currently enrolled" or for the date attended to could have the option of "current." 1

When I first "applied" I was told I already had registered but it couldn't find my account when I put in my name and email. It seemed to take forever to load even though I have hi speed dsl access. 1

When I first tried fall applications were not available even though I was told multiple times they were. Perhaps i'm the inept one? Not sure. 1

When I printed out a copy of my application for my records one of the questions changed to "have your parent or guardians lived in CA for at least 2 years?" to "Have you lived in CA for at least 2 years?" 1

when it came to the High School section you could not opt out of giving any information. It would be nice if you are older than say 50 you have the option to just not give that information sometimes we forget! Thanks for asking. 1

When the application is asking about high school education I did not see an "I'm still in high school" option. You should add that. 1

When there is a question about what other institutions you attended or are attending it would be nice if it said "currently attending this institution". Another thing when applying for summer courses it should be more clear which one to choose for stude 1

when they ask you to pick a question for security they should let you write your own so you can't forget. Just in case their questions they provide are not related. 1

When you go back to check your answers it should start on the first page. The way it works now you have to go back through the pages backwards and then go through them forwards again to get to the place where you can submit. 1

Where is the portion of the application to register for the classes???

While filling out the application it asked for my "intended major or program of study." I was unsure if it meant during my time at Cuesta or in all of my college education because I am only intending to go to Cuesta to do my GE and explore career ideas. 1

Who designed this completely user UNFRIENDLY program???

I run you in redundant circles - ridiculous. 1

Why do we have to submit our Social Security Number twice? 1

Why so much information about Parent/Guardian?	1
wonderful for me. but little room for	
considerations vast varied.during process.	1
Wonderful easy and fast I was very satisfied with	
this website it made the process of registering	
very easy!	1
wont let high school students enter their previous	
college??	1
Woo hooo Cuesta! How are we supposed to	
recover our Cuesta ID if everything was sent to an	
e-mail address that is no longer in existence.	1
Woo Whoo!!	1
Worked great I accomplished what I needed easily	
Thank you.	1
WORKS GREAT THANKS	1
Would not accept application even when filled out	
correctly. Had to call Cuesta two times and they	
told me to just leave certain areas blank as the	
computer program would not accept the	
application if you filled those areas out. I did get	
the application	1
would rather be able to talk to someone in person	
while setting up classes!!	1
Wouldn't let me uncheck former request for	
financial aid re-entry services.	1
Wow it was easy...even for me who is a first	
timer...Ü	1
wow it was so easy! Great layout and very easy to	
understand. Well Done!	1
Wow this is the easiest application I have filled	
out. Thank you for such a great service.	1
YAY!!	1
yeah boyyyyy	1
yes Im 41 years old and just taking some small	
casses. It was so many questions	1
Yes!	1
Yes only because for the first time student and	
their parents they probably won't be able to figure	
it out.	1
You asked for duplicate email addresses twice so	
I'm wondering if you have redundant questions in	
the application?	1
You classified me as a non resident for no apparent	
reason	1

You do not have California Polytechnic (Cal Poly) San Luis Obispo on your college list. This is ridiculous. 1

You do not really have options for students who have attended college but not obtained a degree. 1

You have repeated highlighted areas to submit an Application but none take you to the application process found it at the bottom of the page. 1

You need a more complete listing of California high schools. 1

you need to improve your account login finder. i was not able to find my account. 1

YOU ROCK 1

You should have more FAQs or links clarifying certain sections. 1

you should make it so students can futher understand what each degree is for example there are several business degrees available i didn't understand the difference between some of them or which one would be best for my goals maybe add a link next to 1

You should not be required to enter the day of graduation from as my Diploma does not even give information. I picked a random date to bypass the computer check. The computer should also automatically check the enrollment dates for Cuesta college for form 1

You should offer an email option along with a print option at the end of application...some of us have problem printers! 1

You're a great help for those wishing to help themselves in order to help others in the future. 1

Your application does not account for dependents of active duty military who have been going to college in California for 2 years and are maintaining their residency in another state. I have been here for about exactly the date you check for to be a calif 1

your login and new user buttons rarely work and make it hard to apply 1

your NEXT or BACK/PRIOR PAGE or  
SAVE&CONTINUE options are extremely hard to  
see to proceed forward. It's a color issue. The  
present color is way too lite of a color. It needs to  
be changed to a darker BOLDER color.

Your system did not let me scroll down on pages  
using my mouse. I am using Mac Safari 5.0.3.
