1	I am needing to receive all A's in my courses, so if a tutor that I am seeking guidance from has received anything less I will not be motivated to use the services.	12/17/2016 7:45 AM
2	next time I would prefer a tutor who has a cell phone is reliable, and more available. I work full time, so it was hard for both of us. He was friendly and very nice.	12/16/2016 11:05 AM
3	Jad and Aaron were both super helpful the whole semester! Great tutors!!	12/12/2016 11:38 AM
4	I found Paul R. to be an immense help to me, he improved my knowledge of the subject, so now I feel comfortable helping others. :)	12/7/2016 11:09 PM
5	Our tutor was very nice, and provided helpful assistance during class, as well as being available for outside of class tutoring.	12/6/2016 8:54 PM
6	Keep the program going!!!!	12/3/2016 12:28 PM
7	My class may not have an embedded tutor in it. This is the first I am hearing about it, but this sounds like a great idea.	11/30/2016 3:14 PM
8	Emily was a ray of sunshine in my otherwise dark and stormy life!	11/30/2016 2:12 PM
9	Not sure which of my classes had the embedded tutor, so I based it off the tutor for my anatomy class in the A-T lab. Dave is amazing!	11/29/2016 11:52 PM
10	I wish all math classes were able to have embedded tutors, it was a game changer for me.	11/29/2016 11:40 PM
11	He is very helpful	11/29/2016 11:25 PM
12	Teagan is extremely helpful and goes above and beyond the minimum she has to do for us. She makes practice problems and sends emails outside of tutoring sessions which I assume she doesn't get paid for. If it were not for her I would not have the grade I currently have in Physics. I'm extremely happy to hear that she will be a tutor for PHYS 208B next semester and already know having her as a tutor will be extremely beneficial for me. Not sure how much she is paid currently but she deserves a raise!	11/29/2016 8:46 PM
13	Teagan is extremely helpful. I would not have the grade I currently have in Physics if it were not for her. She goes above and beyond the minimum of what she really has to do for us, often times sending emails with attachments of complex problems in the early hours of the morning to help us prepare for upcoming quizzes and tests. I'm not sure how much she is paid but she deserves a raise!	11/29/2016 8:43 PM
14	I would have not pass my class if I did not have all the one on one with the tutor.	11/29/2016 6:14 PM
15	Great system tutors I've had Are always a massive help	11/29/2016 5:23 PM
16	I don't remember getting contact info for our tutor. I went to one of his review sessions and it wasn't helpful because he stayed in one group. He also didn't do much in class, sometimes he adds to an idea or concept but doesn't walk around asking if we need help. It must have been difficult since the professor lectured most of the class time	11/29/2016 4:20 PM
17	Paul Rigley was a great tutor for stats!	11/29/2016 4:13 PM
18	Aaron is an awesome tutor!! He was very helpful. :)	11/29/2016 1:01 PM
19	Ryan was a great tutor. His help was greatly appreciated!	11/29/2016 12:34 PM

21	Wouldn't have done so well in my class so far if it wasn't for the embedded tutor	11/29/2016 12:17 PM
22	The school school hire more people to help the student in the success center there is no one there willing to help on writing essays,it is a very noisy place to study	11/29/2016 12:07 PM
23	Wish I would have known that I had an embedded tutor.	11/29/2016 12:06 PM
24	She interrupted my instructor often during discussion with points that he was not ready to talk about at the time. I feel like it just took away from the discussion at hand because he got distracted and he had to get back on track.	11/29/2016 12:05 PM
