

How to Check Your Priority Registration Date

Students can view their Priority Registration Date and time in the *myCuesta* portal once the Class Finder is available to view the upcoming term's course offerings. To secure the necessary classes, it's recommended to register on your assigned priority registration day and time.

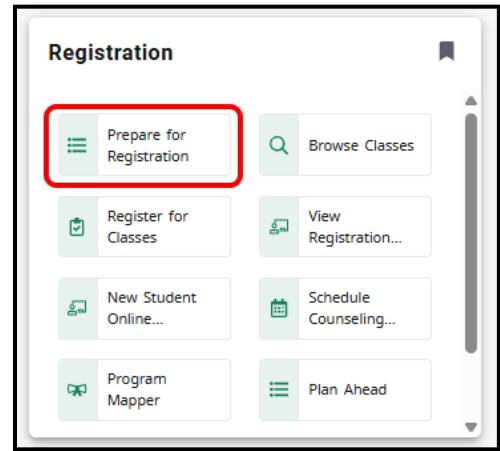

Note: You can make changes to your schedule anytime after your appointment date and time.

STEPS TO CHECK YOUR PRIORITY REGISTRATION DATE:

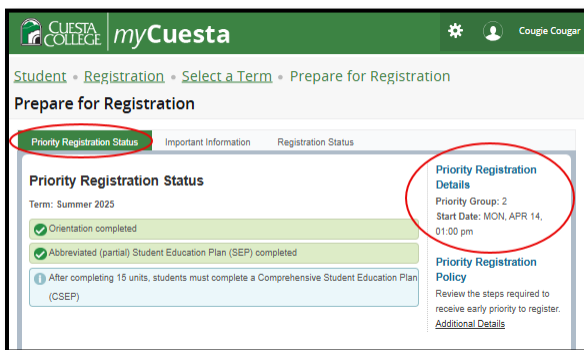

1. Log in to your *myCuesta* portal.

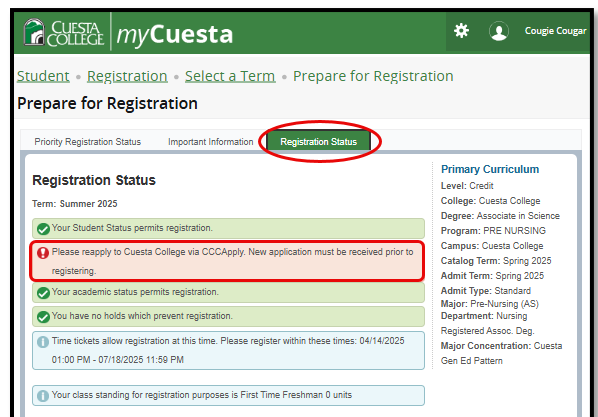

2. Go to the "Registration" tile and select "Prepare for Registration."

3. Choose your term & select Continue, then view your **Priority Registration Status** under the first tab, where you'll find your exact registration date and time.

4. Finally, go to the **Registration Status** tab to check for any holds or required steps (i.e. such as a debt hold or the need to reapply through CCCApply) that could prevent you from registering on time.

Note: Any petition clearance information will also appear under this tab
