

## What Does Satisfactory Academic Progress Mean to You?

Satisfactory Academic Progress (SAP) means you need to make progress in the 5 areas listed below to remain eligible for Federal Financial Aid and Cal Grant.

1. Earn a 2.0 GPA or higher every term
2. Earn a 2.0 GPA or higher cumulatively
3. Pass 67% of the classes you attempt every term
4. Pass 67% of the classes you have attempted cumulatively
5. Not have attempted more than 90 units if you are in a degree program or 36 units if you are in a certificate program

When you miss in any one area at the end of a term, you are placed on “SAP Warning” for the next term you attend. You are still eligible for Federal Financial Aid and Cal Grant with this status, **but you must be careful!** If you miss in any one area at the end of a term when you are on “SAP Warning,” you will not be eligible for Federal Financial Aid or Cal Grant the next term you attend without approval of an appeal.
