

ADVANCED PLACEMENT POLICY

College credit is awarded for Advanced Placement (AP) exams passed with scores of 3, 4, or 5. This chart depicts how Advanced Placement exam scores are applied to Cuesta's local General Education requirements, to the CSU General Education pattern, and to the IGETC (UC General Education pattern). It also depicts the total number of transfer units students earn towards Cuesta's AA or AS degrees and CSU and UC BA or BS degrees.

The acceptance of an AP exam in satisfaction of major-specific course work is an individual campus decision, and policy differs from campus to campus. Therefore, transfer-bound students are strongly advised to see a counselor to determine if their AP exam will be accepted in lieu of a college course that is required for their major at their desired transfer institution. Students with AP exam credit should also see a counselor before completing a college course of comparable content, as it may be considered duplication and units may not be granted for both.

Official exam score reports are required in order to post appropriate AP credit to your myCuestaPathway. Official score reports should be directed to Cuesta's [Admissions and Records](#) Office. Information about ordering AP score reports can be found online: <https://apstudents.collegeboard.org/sending-scores>.
